Business Is "Service"

THEY ARE COMING AND WE ARE READY

Atlanta Awaits Arrival of Her Royal Guests With Outstretched Hands and Overflowing Arms.

They are coming! Atlanta is preparing in every way to meet the thousands of Southern Merchants who are leaving their homes for Atlanta to attend the greatest and best of all the Southern Merchants' conventions which have ever been held. And Atlanta is ready to meet them. For weeks the city has been preparing. The streets are being cleaned, the hotels are being renovated, and the city is in a state of readiness to receive the guests. The convention will be held at the Atlanta Convention hall, and the city is ready to receive the guests. The convention will be held at the Atlanta Convention hall, and the city is ready to receive the guests.

FINAL ARRANGEMENTS MADE FOR BARBECUE

Jim Little Announces Date, Place and Caterer for the Leading Event of Convention.

James D. Little, chairman of the Atlanta Council 18, announced today that the final arrangements for the barbecue at the convention have been made. The barbecue will be held at the Atlanta Convention hall, and the city is ready to receive the guests. The convention will be held at the Atlanta Convention hall, and the city is ready to receive the guests.

News of the U. C. T. Atlanta Council 18

Brother J. A. Payneworth is back in the city after a successful trip to the north and we are all glad to see him smiling face again.

We regret that Atlanta 18 has been rather short on "oil" at the last few meetings, but since the return of J. A. Payneworth to the city it is probable that we will be well supplied in the future.

The boys of 18 will be pleased to welcome their most recent friends during the convention.

Atlanta 18 is sorry the membership of St. Hawkins is not able to attend him at the next meeting.

Secretary Linford invites all waiting U. C. T. members to make headquarters with him during the convention. He will keep open house in his room in the Guild building.

The boys are congratulating Brother H. M. Ash on his ability as a

IT TELLS IT'S OWN STORY

The above cartoon tells the story of the coming Southern Merchants' Convention in full. Atlanta is fully prepared for her royal guests and show them what we can do in the way of hospitality. Everything is in readiness and such preparations have never been made before for a business convention in the South.

There are speakers, barbecues, picnics, receptions, ball games, theater parties galore. But there is also a collection of some of the best wholesale and manufacturing houses in the country and these houses will all be filled with crowds of wise buying merchants during the convention. The stocks on hand this year are, all in all, more attractive, more novel and of better quality than ever offered before. The merchant who misses this opportunity for a good time, an educational time, and a profitable buying time will lose more than he can estimate.

NOTES OF THE CITY SALESMEN

The C. S. A. is under good heaven again. Most of the boys are out of the vacation and are ready now for a steady pull for good business during the remainder of the year.

On account of the first vice president, Earl Harris, being transferred to South Georgia territory, and so not being able to attend the meetings, it was found necessary at yesterday's meeting to call an election to fill Earl Harris' place. The result was

that C. F. Holt was elected without opposition. We are glad to see Brother Holt in our line of officers, and predict he will make a faithful and efficient officer.

A committee, headed by P. B. Payne, has been appointed to arrange for the annual barbecue. This is always one of the most pleasant occasions for the C. S. A. during the year, and we predict the annual good time.

C. F. Holt having been promoted from second vice president to first vice president it was in order at this meeting to elect his successor. Two gentlemen were offered for the position, viz. P. S. Morris and E. B. Thomas. After quite a lively little election Mr. Thomas was elected by a

vote of 21 to 16. Either man was capable of making a good officer, and the choice of either would have been perfectly satisfactory.

J. C. Harrison was present yesterday, having returned from a trip to Boston and other points in the east. He reported a fine trip and was much benefited by the vacation. He was accompanied by Mrs. Harrison and Mr. and Mrs. J. H. Owen.

Reports from the supreme council show a large increase in membership for the last year. There is a reason.

GEORGIA GIDEONS IMPRESS TORONTO

Georgia Most Prominent State at First International Gideon Contest—Boston Is the Place for Next Year.

At the regular meeting of the Atlanta camp of Gideons, to be held in the convention hall of the Piedmont hotel this afternoon at 3 o'clock, the delegates to the first international convention at Toronto will talk what they did and what happened at the convention.

The convention closed last Sunday night July 27. It was the biggest ever held by the Gideons. Last year, when they met in Atlanta, it was thought to be something that would take several years to beat, but it must be admitted that Toronto equaled all of them.

The Atlanta delegation, consisting of H. A. McDonald, C. W. Hatcher, Cliff G. Childs, Captain William H. H. Phelps, President C. H. Burge, together with Mrs. C. W. Hatcher and Miss Edith McDonald, representing the Ladies auxiliary of the Atlanta camp, left Atlanta the morning of July 18.

They arrived at Niagara Falls and found a great surprise awaiting them. A banquet was spread in Queen Victoria park, where the mayor welcomed all the United States delegates to Canada. One thousand five hundred and thirty-two Bibles were distributed the same day in the Niagara Falls hotel.

From Niagara Falls the party took steamer for Toronto, arriving there at 8 p. m. Wednesday.

The convention opened Thursday at 8 p. m. in the Metropolitan church, where all the business of the convention was held. This is one of the largest churches in Canada, occupying an entire city block.

Friday the 25th, the city of Toronto entertained the Gideons and their friends at a luncheon given in the auditorium in Exhibition park. The famous Forty-eighth Highlanders band furnished music for the occasion. A speech of welcome was made by the mayor to the visitors.

Auto rides were given the visiting ladies by the Toronto Ladies Gideon auxiliary. Over 300 Gideons, with the Ladies auxiliary, were in attendance. The largest number of ladies that ever attended a convention was in Toronto.

At the Saturday night meeting in the church, which was crowded, a banner was presented to the Georgia delegation for the membership championship for the year 1912-1913. Georgia sent in the lead over every state in the union.

Boston was selected as the convention city for 1914.

Resume of Week's Evidence Shows Little Progress Made

Place and Time of the Murder Only Big Facts Brought Out in the Mass of Evidence.

One week of the battle of Leo M. Frank, accused of the murder of Mary Phagan in the factory of the National Pencil company, for his life has elapsed, and his fate is yet a question for future developments to decide.

The first week of the trial has been marked by free from sensations.

The two big facts that the week's evidence would seem to show are that Mary Phagan was murdered in the second floor of the pencil factory, and that she was murdered within one hour after she ate her breakfast at home shortly after 11 o'clock.

The principal features of the week's evidence are as follows:

Mary's Mother Testifies.

The examination of witnesses began with the most pathetic scene in the whole week, when Mrs. J. W. Coleman, mother of the murdered girl, took the stand.

With appealing simplicity the mother told of how her little daughter had arisen on the fatal Saturday morning at 10 o'clock bright and joyous in her childish excitement over going to see the Memorial day parade of the eighth regiment of United States soldiers who had eaten, and of how the little girl had happily busied herself helping her mother by doing this or the other small turn in the household.

At about 11 o'clock little Mary, who had finished with her chores, and dressed in a light summer frock, as fresh and sweet as a wild rose, sallied forth to meet her fate.

The mother went gently as she was compelled to recall her little girl's fourteenth birthday, which would have been June 1, and to which she and Mary had looked forward with such pleasure, and as Mrs. Coleman told of the child's beauty, she dwelt tenderly on each feature as if her very heart were breaking over more to caress them.

Identifies Daughter's Dress.

Bearing up wonderfully under the ordeal of beholding the dress of the little girl which she had helped little Mary to adjust before she left home for the last time, Mrs. Coleman identified the dress and the hat with the pale blue ribbon and the tiny bunch of flowers.

Mrs. Coleman was followed on the stand by George Epps, a "time" newsy and companion of Mary Phagan, who had been with her on the street car as she came into the city and had talked with her about the fun they were to have that afternoon when they had promised each other to watch the parade together.

With his head above as smooth and slick as a billiard-ball, George mounted the stand and told the story, but, in substance, it was all the point of explaining how he could recall the day at the sun and tell the time of day.

Were Going to Parade.

He testified that Mary Phagan told her on the Sunday evening following the murder that they had ridden together to the pencil factory on the streets, when Mary had left him to go to the pencil factory and that they had ridden to the pencil factory and that they had ridden to the pencil factory and that they had ridden to the pencil factory.

George Epps Left the Stand and New Lee, the night watchman, at the National Pencil company's factory, who discovered the body of Mary Phagan in the basement and reported his discovery to the police.

He testified that he had seen the body of Mary Phagan in the basement and reported his discovery to the police.

of any day of the trial. A special detail of police was necessary to keep them from the factory entrance and crowding the doorway.

From present indications Jim Connelley, the negro sweeper, who stated that he helped Frank conceal the body in the basement in the strong cord of the state, will go on the stand before Tuesday.

Not Away from Factory.

Lee testified that, in view of the fact that Saturday, April 26, was a holiday, he had been ordered to report for duty at the pencil factory at 4 o'clock, instead of 5 o'clock which was his usual time when he was accustomed to report on Saturdays, and accordingly had arrived at the factory at 4 o'clock before 4 o'clock. He found the front door unlocked as usual, but found the door on the stairway leading to the second floor closed.

Lee testified that when he arrived at the factory he found the door closed and the door rubbing his hands saying that he was sorry that he (Lee) had come to work on Saturday, and that he (Lee) had been ordered to report for duty at 4 o'clock. He found the front door unlocked as usual, but found the door on the stairway leading to the second floor closed.

SPEEDING UP SENATE ON TARIFF MEASURE

Democrats Plan for Longer Sessions—Walsh, of Montana, Supports Entire Measure.

Washington, August 7.—In an effort to hasten the progress of the tariff bill, leaders on both sides in the senate determined today to support a movement to have the session begin next week at 11 a. m. instead of at noon. The senate will sit at seven hours a day under this arrangement, and the leaders hope the extra hour will serve to get many campaign speeches out of the way.

The earthenware schedule finally was completed today after an amendment by Senator Jones to put a counter-scheduling duty will come into effect. Senators Borah and Gronna, in conference with the senate, decided to schedule temporarily was laid down. Senators Pennington and Oliver, who are especially interested in it, were out of town. The sugar schedule also was passed over. Both will be taken up next week.

Senator Walsh made the principal speech of the day in favor of the bill. He supported the free trade and sugar provisions, although in the caucus last month he had vigorously opposed free trade.

Senator Walsh declared that the worst sugar, first and other interests of his state would not be ruined, as predicted by Republican senators. "Sympathy over the deplorable plight of the sheep grazers is altogether gratuitous," declared Senator Walsh. "He is not asking it. Give him a law which will prevent the fraudulent dealer from imposing upon the public by passing off as a genuine article of original manufacture from the long herds, goods that are largely cotton or the product of renovated rags, shoddy or other waste value free access to the public range."

the mountain pastures with their sparse herbage, which becomes a menace to the former and which he will ask no odds."

When he concluded Senator Thornton demanded to know if he had changed his mind since the caucus. Senator Walsh, after replying, said there was no argument for free wool or free sugar in his speech, but that he meant to say that neither industry would be destroyed in consequence.

The republicans succeeded today for the first time in amending the bill. On the suggestion of Senator Smith, Senator Hughes offered an amendment striking out three words in the wool schedule which the Utah senator said would lead to endless misunderstanding if it allowed to remain in the bill.

"I cannot refrain from expressing my great gratification that an amendment has been made to this bill which will aid democratic causes," said Senator Gallinger, bowing to the democratic side.

HE ROBBED THE MAIL
CARRIED BY HIMSELF
Denver, Colo., August 7.—(Special.)—Inspectors here announced today that Charles J. Wagner, a mail carrier at Hachita, N. M., had confessed that he was the man who robbed the mail carrier by himself, this morning. He also confessed that he shot himself through the arm to give color to his story, that he was held up by two Mexicans.

The government had sent a squad of soldiers on the trail of the supposed highwayman. Two Mexicans were arrested and identified by Wagner as the robbers. The Mexicans proved alibis.

ARMLESS WOMAN MARKS
BALLOT WITH HER FOOT
Chicago, August 7.—Miss Kitty Smith, who is armless, marked her ballot with her foot when she voted today at the first election in Maywood under the new woman suffrage law. She is founder of a home for crippled children.

DIX
Our Prices and Plans
Attractive to Business Men
This is proven by the rapid strides of our business and the number of transactions that we have with business men who carefully consider before they purchase property.

Our plans are clean-cut, based upon accurate business principles carefully figured, and assure against loss or dissatisfaction. Our diamonds are as cashable as a certified check at any time within one year of purchase, as we guarantee to buy back at ninety cents on the dollar.

We also take back our diamonds at full purchase price in part payment on larger stones at any time, and allow in addition any meantime advance in price, as we think this gain belongs to our customer. This means that you can wear a hundred-dollar diamond a whole year at a cost of less than a dollar a month, or that it is worth a hundred-dollar bill to you whenever you want to gratify your taste for a larger diamond, and that you receive the benefit of any advance in value.

Isn't it gratifying to be constantly assured of the value of your property? Quality and weight, and prices really the lowest, all in plain figures from which we never vary, is doubly assuring, and argues contented possession. Our prices are figured without regard for the profit of a single sale, but to make satisfied customers and to realize from the greater amount of business.

Our Diamond Book, No. 7, goes into careful detail, and is full of valuable information. We want you to have it—free upon request.

"BAPTISTS HARMFUL," ACCORDING TO RUSSIA

Holy Synod to Be Allowed to Put a Ban on the Denominational.

St. Petersburg, August 7.—The Russian ministry of the interior is credited today by The Moscow Freeman with the intention of permitting the Holy Synod to proclaim the Baptists as "a sect especially harmful to the state" and therefore not eligible for registration and not possessing the right of liberty of worship.

The action of the government is attributed by the newspaper to recent refusal of Baptists to take the military oath.

The Baptist World's Alliance, during its session in Philadelphia, in 1911, raised \$70,000 for the establishment of a Baptist seminary in St. Petersburg. Two Baptist ministers were appointed to proceed to the Russian capital to seek permission from the emperor for the erection of the building.

HIS TOOTH WAS PULLED
AND DEATH FOLLOWED
Springfield, Ill., August 2.—Searching inquiry was begun today to determine the cause of the death last night of H. H. Kammerer, a young druggist of this city, who was in good health. He was held up by two Mexicans when he went to the office of Dr. H. H. Huns.

While Dr. Huns insisted today that Kammerer drank a quart of whiskey before the tooth was pulled, Coroner Rhodes said examination of the druggist's tooth failed to reveal presence of whiskey. Dr. Huns admits he pulled the tooth while Kammerer was lying on the floor. Huns said he is in his office when friends inquired about him because he wanted Kammerer to get over the effects of the stimulant.

UTILITIES CORPORATION
BUYS TITTON POWER CO.
Tifton, Ga., August 7.—(Special.)—The plant of the Tifton Ice and Power company, including site, franchise and all equipment, was sold this afternoon to the Southern Utilities corporation, a firm which has recently purchased sixteen similar plants in Florida and Georgia. The purchase price was \$100,000.

The sale was closed through A. Van Arman, attorney for the corporation of Kalamazoo, Mich. The Tifton Ice and Power company was organized ten years ago and was composed entirely of local wealth. There are many rumors as to the purchase of the purchasing corporation, whose clients extend in a line from Tennessee to south Florida, are reported to be that a Tifton system from New York to Tampa is contemplated and water power combine will operate all the plants. The deal here has been on for several weeks.

Colonel W. H. Morton, Athens, Ga., August 7.—(Special.)—Colonel William Henry Morton will be buried Sunday morning at 11 o'clock at his home in Athens. He died in this county. His death occurred after a second stroke of paralysis last night in Parson's district. He was 73 years old and is survived by his wife and the following sons and daughters: James William Morton, Robert H. Morton, Powell Morton, Will Henry Morton and Tombs Morton, all of Clarke county, and Mrs. Parker Carlton, of Union county.

League to Be Formed
FOR CATHOLIC WOMEN
St. Louis, August 7.—During the twelfth national convention of the American Federation of Catholic Societies, in Milwaukee, August 7 to August 14, a national Catholic league for women will be organized and steps will be taken for the organization of an international Catholic federation, in which the federations of Ireland, England, Germany, France, Italy, Austria, Belgium, Canada and South America will be represented. It was announced today by Secretary Anthony Matte.

The convention will open with a solemn pontifical high mass celebrated by Cardinal Gibbons, of Baltimore. Archbishop Keane, of Dubuque, will preach the sermon. Archbishop Ireland, of St. Paul, will deliver the principal address at a mass meeting August 10.

Mrs. H. C. Carter, Athens, Ga., August 7.—(Special.)—Mrs. H. C. Carter, mother of A. Carter and H. T. Carter, traveling men after an hour's illness from acute indigestion. She was a native of Randolph county, Ga. and was being carried back to that county for the summer and family. Her husband, W. L. Carter, of Draper, S. C., also survives her.

\$8,694 Gain at Postoffice.
That postoffice receipts at the Atlanta office for the month of July were \$10,212.25. For the same month a year ago the receipts were \$1,518.25, making a difference of \$8,694.00 in favor of 13 over '12.

"Blue Sky" Law Appealed.
St. Louis, Mo., August 7.—(Special.)—McGovern today appealed the "blue sky" bill, bringing all investment companies operating in Missouri under the supervision of the state commission on banking and finance. Detailed reports of all transactions.

A woman will forgive a man anything except a disinclination to marry her.

AS MURDERER AND AS ROBBER

Ex-Gov. Brito, of Mexico, Is Arrested by U. S. Officials at Nuevo Orleans—Admits Killing Huerta Officers.

New Orleans, August 7.—Castillo Brito, former governor of the Mexican state of Campeche, was arrested here today by federal authorities and held without bail on a charge of murder and robbery, preferred by the arrested Mexican authorities.

The arrest has caused intense excitement in New Orleans revolutionary circles, including not only the representatives of Huerta, but also the various classes of Central Americans who make their headquarters in this city.

Admits Killing Two Men.
Brito admits he killed two representatives of Huerta, who he said were endeavoring to arrest him illegally during theadero revolution. He said it was a time for war, however, and that he should not be called to account for his act.

The former Mexican governor's arrest, however, does not mean the end of charges of blackmail which resulted late last night in the arrest of two United States department of justice agents in this city, who were taken into custody along with the self-styled representative of the Carranza revolution, Mr. Hernandez.

While the Huerta men were in the city, they were arrested by United States agents. It was charged that they were in the city to protect him from arrest. The agents were arrested by Ernesto Fernandez, who claims to be connected with Carranza.

Brito is arrested today by United States Marshal Ladd, and immediately is arraigned before United States Commissioner Browne. He pleaded not guilty and was sent to the parish prison without bail. Brito declared that when the Huerta men were arrested to arrest him in Mexico he knew their action would be followed by his death, probably by agents made in force to follow him.

He related, drawing the sword from his belt and slapping it with his hand, that he had drawn his revolver and killed the two men. It was in vain, however, and they were the enemies. He said, would be his defense in releasing him.

Huerta for Arrest.
Washington, August 7.—The arrest in Mexico today of former Governor Brito of Campeche, Mexico, was the latest in a series of events in the Mexican revolution, through the Mexican embassy here, for his extradition as a fugitive from the United States. He was arrested by United States agents, immediately upon receipt of the report from the department of justice that he was a fugitive from the necessary regulation and warrant pending the removal from Mexico of the necessary regulation and warrant.

Both of the alleged offenses are extraditable under the treaty between the United States and Mexico, and within forty days evidence of criminality and prove that the acts were not political crimes.

Officials of the department of justice were seized today by the arrest of its agents, Matthews and Mott, on charges of blackmail in connection with the attempts to apprehend Brito. Plans were laid for an immediate investigation. Commissioner Browne, pending a report from a special agent sent from the United States to make the inquiry.

A. Bruce Rhoads, chief of the department of justice, expects a telegraphic report from the investigating officer on Monday.

General Diaz Not Wanted.
Los Angeles, Cal., August 7.—When General Felix Diaz, Mexican revolutionary leader, was attending an informal reception given in his honor last night by General Pershing, 200 other residents of the Mexican colony here, it was learned today that Diaz was expected to leave for San Francisco. Whether he will continue his journey to Japan is not known.

PRISON FARM VISITED BY SENATE COMMITTEE

Barbecued Dinner Served Senators in Lobby of Stockade by Prisoners.

Milledgeville, Ga., August 7.—(Special.)—The senate penitentiary committee spent today at the prison farm and thoroughly examined this institution. Superintendent Burke had prepared a splendid barbecue dinner, which was served in the lobby of the state institutions in this city. The committee left for Macon at 5 o'clock, after a very busy day.

It is not known what their report will be, but from their expressions they will certainly recommend that better quarters be built for the negro prisoners who are at present housed in a big old barn.

This shows the new and attractive sample room which the Lamar & Rankin Drug Company has arranged in order to show their line of toilet goods, rubber goods, brushes, stationery, soap, etc. It has just been completed, and is one of the neatest and best looking rooms of its kind in the city.

T. P. A. JOTTINGS

By W. M. Jenkins, State Press Chairman Georgia T. P. A.
 Good news comes from Houston, Texas, where the national convention will be held in 1914. President Carlton of post C Houston writes: "I notice State President Hardy has allotted 25 new members to post C during this year. Mr. Hardy will not be disappointed in his expectations. I have never seen so much enthusiasm in the T. P. A. as there is now. What is the matter with Georgia? Why can't our former work in conjunction with the press chairman?"

If it has been the custom to let T. P. A. work drag during the heated period why not break that custom and get up more enthusiasm? Appoint a committee of five who in carry on a membership campaign for the balance of the year. Until we have a majority of the traveling men on our rolls our influence in public affairs will not carry the weight it should be so really effective.

Can anyone prove that a soul was ever lost? Tell the truth, what do you know about this saving business? If we are not saved for this world can we be saved for another? What we believe is quite a different proposition to what we know. We do know that we are in this world and should ever and ever strive to make those about us happy while in this world. Let everybody mix up and be friendly for this world. Yes a common fellowship. If you are not happy in this world we doubt the possibility of your happiness in another world.

Friendship is a peculiar thing; it permits some to do unto you what they would not be willing for you to do unto them.

The time is now at hand for each state, and more particularly Georgia, to organize its far-reaching campaign for new members. Will what we do give us the credit of holding ourselves in rank A or will it be class B? Time only can tell.

What a power, in religion and friendship when joined together.

Affected goodness without being good, and modesty without being modest, is provoking and spells hypocrisy, pure and simple. Let us be just what we are and try to help men to be good by praising them and speaking well of them. Show our friendship faith and hope in humanity by saying something good and good using the tip "I told you so." You don't know him as I do. "He thinks everybody is against him." "I heard it said somewhere he was crooked." "We have heard he would not do to trust" and many other mean things unworthy of you and the party talked about. All because you did not like him yourself and didn't want anyone else to like him. You have used the black ball on him, stood in his way to higher progress and with your influence and power have tried to keep him down. How often can you in the name of Him who was good, affect goodness. Turn a kindly spirit and lovable side to all.

If our worthy secretary would keep us posted as to what is going on in

Vice-Chairman of Convention

R. O. CROUCH, of Griffin, Ga.

R. O. Crouch, of Griffin, Ga., is a vice made him visit Atlanta at the buying season for many years past. He is essentially a man of ideas, and it is always interesting to notice the close attention which is given by any business man when Mr. Crouch has a suggestion or two to make.

Mr. Crouch will be one of the principal figures of the convention, and has done much to bring the final arrangements to that point of satisfactory preparedness which they are in. He is a progressive mercantile man in every sense of the word, and it is his wide-awake, good judgment which

now live in order to gain the good will of the skies? Mother Earth is pretty good. If we could get mankind good enough to be just one toward the other.

After you have been friends with a man for a long time, eaten with him, drunk with him, walked, the arm-clutch with him and have patted him on the back, do you think it is good policy to lie to him or about him?

ENGAGEMENTS ANNOUNCED

Mrs. Alice Muse Thomas announces the engagement of her daughter, **Adeline**, to **Mr. James Leech Wells**, the marriage to take place in the fall. Miss Thomas made her debut in society last year, and has countless friends who admire her for her many attractions and womanly graces. She is a piquant brunette beauty, bright and charming. She is the daughter of the late **William Thomas**, who was one of Atlanta's leading citizens and prominent in the business and social world. Mr. Wells is a native of Louisville, but since his residence in Atlanta, for the last two years, he is well known in the business world, and has many friends.

GOWER-HELMER.

Mrs. Ann Lee Gower announces the engagement of her daughter, **Mary Belle**, to **Mr. Harry Helmer**, the wedding to take place August 19, 1913, at 8:30 p. m., at the Presbyterian church, Pantheville, Ga.

SPECHT-ANDREWS.

Rev. and Mrs. J. R. Specht announce the engagement of their daughter, **Fannie Mae**, to **Mr. Ernest Clarke Andrews**, the marriage to take place in the late summer.

MANN-EVERETT.

Mr. J. R. Mann announces the engagement of his daughter, **Sara Margaret**, to **Mr. Luther McKinley Everett**, the wedding to take place August 25, at 8 p. m., at the home of the bride's aunt, **Mrs. D. J. Fant**, 419 Capitol avenue. No cards.

HOLCOMBE-WILLIAMS.

Mrs. Rachel E. Holcombe announces the engagement of her daughter, **Olivia**, to **Mr. Robert Marion Williams**, the wedding to take place August 12. No cards.

SCOTT-ZACHRY.

Mrs. Maddox Entertains.

A pretty event of the week was the bridge party given Friday afternoon by **Mrs. W. I. Maddox** at her home on Howard street in compliment to **Miss Margaret Bonafant**, of Birmingham, who are the charming guests of **Mrs. J. P. B. Allen**. The apartments were beautifully decorated with palms and growing plants and red and white flowers.

The centerpiece of the table in the corner was a white enameled basket filled with red zinnias, the handle of the basket tied with a large bow of tulle, the shade of the flowers, **Mrs. Maddox** wore a gown of white and black with over green champagne satin, with a touch of black in the corners. The guests included **Miss Bonafant**, **Miss Helen Jones**, **Miss Margaret Bonafant**, **Miss Leonard Maddox**, **Miss Nellie Baker Stewart**, **Miss Elizabeth Morgan**, **Miss Lillian Logan**, **Miss Helen Douglas**, **Miss Margaret Ashby**, **Miss Lila Jean Logan**, **Miss Josephine Stoner**, **Miss Tinsley Harrison**, **Miss Susan Trade**, **Mrs. Charles Bowman**, **Mrs. W. W. Rushton**, **Mrs. Victor B. Smith**, **Mrs. Maud Maddox Johnston** and **Mrs. J. P. B. Allen**.

Postell-Fairman.

An event of interest to their many friends was the marriage of **Miss Louise Postell** and **Mr. John Fairman**, which occurred Wednesday evening, July 31. The ceremony was performed by **Rev. N. B. O'Kelly**, Mr. and Mrs. Fairman left for a trip through western North Carolina. After August 15 they will be in their new home at 143 East High street.

Heart-Dice Party.

Mrs. E. A. Kuppinger entertained four tables at heart-dice at her home in East Point Friday afternoon in honor of her sister, **Mrs. W. R. Coleman**, of Jacksonville, Fla., and **Miss Lelia Ware**, of Owenboro, Ky.

Miss May Shepard was the prize for top score in the game, which was a pair of silk hose. The guests were served during the afternoon at the game tables.

Mrs. Kuppinger received her guests wearing a handsome dress of blue crepe messaline. **Miss Coleman** was crowned in **Neil Rose** satin, and **Miss Ware** wore pink voile over pink satin. Sixteen guests were present.

Afternoon Reception.

A pretty event of the past week was the informal reception given Wednesday afternoon by **Mrs. J. C. McKennie** at her home on Church street in East Point in honor of the members of the Woman's club.

The club colors, yellow and green, were used in all details. Punch was served in the hall from a bowl, baked in soufflées and iced by **Misses Mattie and Winnie Couch**, the dining room, which was white and pink, were served, yellow and green were prevalent in the decorations.

Mrs. McKennie was assisted in receiving her guests by **Misses Lennie Thompson**, **Louise Taylor**, **Fannie May Howell**, **Emma Connolly** and **Mrs. H. P. Brotherton**. **Mrs. McKennie** wore white lingerie.

For Miss Hunter.

Mrs. Jack H. Nelson entertained the members of her bridge club and a few extra guests Tuesday afternoon in compliment to **Miss Carrie Hunter**, of Seneca, S. C.

The house was attractively decorated with plants and flowers and refreshments were served after the game. **Mrs. H. L. H. Carroll**, **Mrs. R. H. Caldwell**, **Mrs. M. F. Herndon**, **Mrs. Frank Collier**, **Mrs. E. J. Coleman**, **Miss Julia Wilburn**.

The visitors were **Misses** Campbell, Hunter, Hester, DeWald, Lucile Stephenson, Ruth Love, Mrs. H. W. Willson, Mrs. W. H. Stuchman, Mrs. Kiehn Hunter, Mrs. Hildie Norris, Mrs. W. H. Hall, Mrs. J. H. Newb.

Mrs. Cline Entertains.

Mrs. Hail W. Cline entertained delightfully Thursday afternoon for her sister, **Mrs. Charles P. Guburn**, and **Mrs. C. A. Ramsey**, both of New Orleans and formerly Atlantans. Two continents were happily enjoyed, and **Miss Addie Baber** and **Mrs. Frank Wingo** were the fortunate winners, prizes being a beautiful bar pin and a lucky blushing. The dining room, where punch was served, was prettily decorated as a Japanese room, and the other rooms were artistically arranged with growing plants, the prevailing color scheme being red and green. During the games **Miss Louise Buchanan** and **Mrs. Ouburn** favored the guests with a number of beautiful vocal and instrumental selections, after which delicious refreshments were served. The guests included **Mrs. Charles P. Guburn**, **Mrs. C. A. Ramsey**, **Mrs. Van-**

YARYAN NAVAL STORES RECEIVERS WIN CASE

**Speer Grants Authority to Issue
of Certificates to Continue
Operation of Plant.**

Mt. Airy, Ga., August 2.—(Special).—A case of unusual importance to the people of south Georgia, and particularly to those of Brunswick, was heard today by Judge Emory Speer, who granted the application of the receivers of the Yaryan Naval Stores company authority to issue receivers' certificates in the sum of \$100,000 for the purpose of continuing the operation of

designed by the genius who discovered the process.

"I cannot find it in my heart to do this," he said, besides, the best thing for the creditors. This is plain enough. These receivers' certificates, in my judgment, ought to be sold at a discount of 10 per cent of the creditors' rights in the purpose of the bill. Eighty-five per cent of the stockholders agree to subscribe the certificates. A small number of creditors sell one party, the Pukon Bag company, owing a claim of \$300, comes forward to object. It has the right to object. It is entitled to have its share of the amount of the certificates sold to the receivers' certificates. It has the legal right to attempt this, however much we may question its wisdom. But in order that it may not make a precedent, I will not allow it to do so."

This is all I can ask. The receivers' certificates will be issued, and these citizens of Ohio who manifest the purpose to do so much for the southern people will, so far as my power goes, be accorded the opportunity. In a long judicial life, never have I seen the promise of such amazing benefits in any project for the betterment of all before the court and the people at large."

SI HAWKINS WRITES RACY LETTER; SAYS HE'S COMING

Letter Received From a Real Country Merchant—Will Lock Up Store and Come to Convention—Is Added to Staff of Daily Firing Line.

The letter which is published here was received one day this week to the editor of this department. Mr. Hawkins, while he refuses to tell the exact part of the country which he claims for home, nevertheless writes a good racy letter and we are glad to see that he has decided to come to the city for the Southern Merchants' convention. The letter made such an impression in this office that it was decided to try and add Mr. Hawkins to the staff of The Constitution Firing Line. For the convention period at that rate. The wires were used in an endeavor to locate him, and finally a friend of his put us in communication. The result was that he has consented to report as a doer of impressions and ideas about the convention exclusively for the columns of The Constitution Firing Line. He states that he will arrive in the city early Monday morning and will have his first story ready for the first issue of the daily Firing Line on Tuesday morning next. We know that the readers of The Constitution Firing Line will be glad to hear this good news and that the stories written by Mr. Hawkins will be read with interest.

In deference to Mr. Hawkins' wishes in the matter we refrain from publishing his home address, and will only state that it is located in one of the states which are below the Mason and Dixon line. We herewith publish the first letter, written by Mr. Hawkins, and which was the cause of his breaking into regular newspaper work.

SI Hawkins Letter.
July 15. Editor Constitution Firing Line—Dear Sir: I take my pen in hand to write you and say if you think so how would he possibly be going to hold right now. How best as I have him to no doubt of this nature at all. I can't exactly say as how I'm altogether wise to the proper thing to do. If you think I might come, please write and say so in your paper, and I'll see it. If Sam Higin gets it, he goes to the village cum Monday. Sam Higin lives down the road a piece and he quite occasional gets a city paper. The way as how I cum to no this here concern was sent to be pulled off by a reading it in your paper about a week back. Sam Higin, that's Sam's third wife, sent down a jar of butter by our Sally, and she wrapped it up in the paper and were I red to shut it got me to thinkin' Taw. I haven't never him away from home for high on twenty year, and I see to myself as how I would be a mighty good time to take a little trip. I reckon I'm pretty small punkins along side of the fellows as I'll be up to the city but I sort of finger as how I'm a merchant myself, even if I am mighty small peraters an' I kin see the sites of Atlanta even if I don't get much in the line of goods or ideas. When I read that that piece of yours 'bout the ball game, 'cees and show houses, I mighty nigh laffed. I see rite out loud.

OFF FOR CHICAGO

H. T. Bell, of John Deere Plow Co., Leaves for Vacation.

H. T. Bell of the John Deere Plow company of Atlanta, left last Friday for Chicago on the first stage of his vacation trip. Mr. Bell will go from there to the head offices of his company at Moline, Ill., and will be away from the city for two weeks in all. He would not state what was the exact object of his trip to Chicago, but he is rumored around the office that he is particularly anxious to see a big league ball game once more. Whatever is his object, however, we surely hope he secures the consummation of his desires and, above all, has one of the best of all possible good times. There is no better fellow to meet than Mr. Bell.

E. F. Malone, of the Capital City Tobacco company, was found busy opening mail last Friday. As checks after check rolled out the smile on his face was a treat to see.

J. J. Eley, with the Dixie Pickle and Preserving company, has been in Dalton, Middlesex and surrounding territory for the past week, and has had extra good business.

CREDIT MEN'S ASSO. MEET SET FOR SEPT.

Quarterly Meeting Is Postponed on Account Convention and Hot Weather.

The Atlanta Association of Credit Men had a meeting of their executive committee last week and decided to postpone the regular quarterly meeting of the association until sometime in September. On account of the excessive heat and the fact that for the next two weeks the city will be full of merchants attending the Southern Merchants' convention, it was thought better to postpone the meeting until that time.

When it is held there will probably be a Dutch supper provided and a prominent speaker is being asked to address the meeting.

Convention Chairman.

When the Southern Merchants' convention, which convenes in this city tomorrow, is a thing of history, we shall all be talking of the splendid work done by the men who have had the arrangements in hand and who have done the hard work making ready for this big gathering of business men.

Amongst these men there is none who have done more for its success.

BOLLING H. JONES.

on the biggest scale than the president of the convention. Bolling H. Jones, Mr. Jones is one of those men who enters with his whole soul into whatever he undertakes and when he is at the helm in any movement its success is practically a foregone conclusion.

These Southern Merchants' convention will simply be another feather in his cap as a man who is capable of heading and directing big things.

CORN STORY CLUB

Braswell and Hyatt Start Competition as to Best Reports.

D. M. Braswell with John Silvey & Co. came in this week and began talking of the corn he had seen in his territory that season. He told a fine story but the trouble is that he was talking in all seriousness (so he says) when Wags Hyatt had on ship and spoil the whole thing by his unwarranted exaggeration.

"I saw corn in the counties of Butts, Henry and Habersham," said Mr. Braswell, "that was 15 feet high and set ears to the stalks."

It was here that Mr. Hyatt broke in and his statement went something like this:

"That's nothing. In my territory I saw it 16 feet high and with two crops growing on the same land at the same time."

The question now before the house is whether either or neither is exaggerating, or if one is, which, and why? Answers may be sent to either this office or to the two gentlemen concerned, care John Silvey & Co.

Among the visitors with the Lamar & Backlin Drug company this week were Hon. L. C. Allen of Houston, Ga., and J. L. Luvvorn, of Bowdon, Ga.

Brother Garrett Kelly presented the boys with some Bass Island grape juice which was properly used during the meeting and highly appreciated.

Mark Hirschberg is in Florida and was last heard from in Tampa. He writes his firm, the Hirschberg company, that he is experiencing some sure enough Florida weather.

The Foundation Must Be Right

It used to be a common saying that to make a gentleman out of a boy you had to begin with his grandfather.

Whether this exaggerated the influence or heredity or not we couldn't say, but there is a parallel case in shoe manufacturing that is easier to prove.

The making of a modern shoe begins long before that shoe starts through the works.

Its wearing qualities are determined, in a large measure, beforehand in the selection of the material that goes into it.

Its style rests with the designer, who, in buying his lasts, must look months ahead and gauge accurately the tendency of the ever-changing whims of fashion.

Its finish and appearance are vitally dependent upon the perfect accomplishment of every detail in its construction from the first cutting to the final polish.

It is the attention and care given to every one of these phases of shoe manufacturing that have given RED SEAL Shoes their pre-eminence in the South today.

We'd like every visitor to the Southern Merchants' Convention, August 4 to 15, to take a trip through our factory while here.

We want you to see not only the quality of our Georgia-made shoes, but the How and Why of it.

You'll see every detail of construction and every bit of material that goes into our shoes.

If you sell RED SEAL Shoes this knowledge will make you a more confident, convincing salesman of them.

If you sell some other line, you'll know how THEY OUGHT to be made.

Come by our offices, 30-32 Auburn Ave.

committee representing the board of directors of the National Conservation Exposition, to be held in Atlanta, Georgia, next November, will be in Atlanta Monday or Tuesday for the purpose of meeting with the members of the Atlanta business men of Atlanta, and interesting them in the proposed exposition.

It is a matter of great regret to the directors of the exposition that Atlanta has not been able to attract interested themselves as yet to the extent that it is desired.

It is altogether probable that, after the conference of this committee with the Atlanta manufacturers, Atlanta will be liberally represented.

overlook the great opportunity this exposition affords for advertising her manufactured and commercial products.

Colonel Robert J. Lowry, president of the Lowry National bank, has been asked to give the opening address in the management of the exposition for some time past, and he and others of the prominent business men of Atlanta will meet the committee from Knoxville Monday afternoon, and go over the matter in detail.

There is every indication that the exposition will be a success, and that the business men will be proud, and by all means, the Atlanta manufacturers, especially in the western section, should have a creditable representation.

The National Conservation exposition means much to Atlanta and Georgia. It will open at the Kernville September 1, and will exhibit not only the ideas of conservation, but the commercial and manufacturing resources of the southeast. Many of the southern cities have engaged large amounts of space. Cincinnati having taken some 5,000 square feet, but Atlanta has not as yet provided for representation, and this is a matter in which every manufacturer and business man in this community should manifest a lively interest.

Conservation of natural resources of this great section, the Appalachian and adjacent sections, with the view

making these natural resources permanent wealth-producers, is the slogan of this great exposition, and is a movement of the most vital importance to our section, and concerns both the present and future generations. Surely Atlanta business men cannot afford to

Woman's Constructive Work Must Go on Whether She Votes or Not

By Mrs. Walter D. Lamar, President Georgia Division, U. D. C.

"Women must continue in the constructive work they have been doing through organization, whether or not the responsibility of suffrage is added," said Mrs. Walter D. Lamar, of Macon, president of the Georgia Division of the United Daughters of the Confederacy, during a brief visit to Atlanta this week.

"It is a visionary idea many women have that with the vote all their former responsibility and activity in public matters will cease. On the contrary, more than ever will women need organization when they have the vote; otherwise their entire machine, which has been in the making so long, and which has accomplished great things, will stand for naught, and they will have no medium through which they can pull together. It will be a power no one can doubt when, with their unquestioned influence and their organization, both tried and proven, they can combine the vote; but of the three qualifications for usefulness never would I discount the power of the influence and the organization."

A Pleasant Visit.
This statement from Mrs. Lamar is significant, since few women in the state have rendered more valuable service in public matters than she. She represents the type to whom political responsibility must be entrusted.

Not only as president of the Georgia Division of the Confederacy has she done active and telling work, but in many organizations making for constructive social work along many lines she has been most prominent.

While visiting in one of the social settlements of Macon in early March, she was thrown from her horse, her injuries requiring a long sojourn in a hospital. Since her return to her home in Macon in June she has taken up the making of the program of the annual convention of the Daughters of the Confederacy to hold this year in Knoxville, Tenn.

She has divided the woman question for Maine this week she will have marked interest and influence.

The Way Women Can Work.
She has divided the woman question thoroughly and sees the suffrage issue from many angles. The work she has done is an important one in this period of woman's constructive work in Georgia. Discussing the activity of Georgia women of the present, Mrs. Lamar said:

"The clarity and strength displayed in the recent conference with women as given in The Constitution, bearing upon the lives before the state legislature, is a happy acquirement to the power and diversity shown in the Woman's Edition of The Constitution published in June, this edition a striking expression of woman's organization and its value."

"The powerful truth suffrage is the influence wielded by women of the right type from time immemorial, and I believe it will always be more effective than the use of the ballot alone."

It's the little, intimate, everyday home scenes that make up the home story we would like to keep.

New Fall Models in Silk Dresses and Tailored Suits

At Frohsin's

NEW Fall models in Women's SILK DRESSES—and TAILORED SUITS—have arrived and are now on view at FROHSIN'S. Many are "just right" for immediate use—not a bit too heavy!

There are Dresses for Street Wear and for Evening or Afternoon social functions. Distinctive, smart foreign and domestic models! The predominating colors are Wistaria, Mahoganies, Dark Greens, Navy Blues, Niggerhead Browns and Black. The materials are principally Japanese Crepes, Silk Poplins, Crepes de Chine, Crepes Meteor—and Krinkled Crepes and Poplins.

We are also showing the new arrivals in DANCING FROCKS—gorgeously beautiful—in combinations of Crepe and Lace or Net—and Crepe and Chiffon—in White and all the Evening Shades—some pretty head!

The new Fall Styles in TAILORED SUITS are here, too! Strikingly different from what's been worn. Coats are quite long—34 to 38 inches. Some have straight-line effects with cutaway fronts—some are in blouse effects with Kimono sleeves.

We hope you will come and see our display tomorrow! You will find much to interest you here.

GOSSIP OF GEORGIANS IN THE METROPOLIS

By R. S. Carraway, The Constitution's New York Bureau.

New York, August 2.—(Special)—Mrs. Tom Pierce has a new chum. Mrs. Effie Alsop, the twenty-year-old Washington, Ga., girl who a year ago married Edward B. Alsop, a Pittsburgh steel millionaire, some times her own age, thereby acquiring a place on the North Shore and society women.

They are neighbors and under Mrs. Pierce's wing Mrs. Alsop is beginning to take a prominent place in North Shore social activities. Mrs. Pierce is living at the Rodgers estate, and a curious collection of her former husband, Thomas W. Pierce, and his wife, Mrs. Pierce, and their friends, Mrs. Alsop, their best friends, are inseparable. They are together every morning on a horseback ride or for a spin in one of the automobiles. The afternoon sees them at some function or dining through the beautiful North Shore roads. Usually there is a dip at some one of the beaches. In the evening, after dinner, they are apt to be together.

Mr. Alsop, extremely proud of his pretty young wife, does not take an

active part in the frivolities of summer time. He has retired from active business with a fortune of \$20,000,000. Mrs. Alsop, who will be remembered in Georgia as Miss Effie Popa, Hill daughter of Mr. and Mrs. John Hill, has won the name of being a "good fellow" through her love of riding, swimming and motorizing and she and Mrs. Pierce, in their alliance, are great favorites.

The Rev. Robert Jones, the Atlanta evangelist who is rapidly becoming known all over the country and who is affectionately called Dr. "Bob" Jones, has been in Gotham for the past week conducting services in the Tent Evangelical on West One Hundred and Twenty-fourth street, where he had preached to large crowds.

"If there isn't a hell, there ought to be one," Dr. Jones told his congregation one evening when The Constitution's correspondent went to hear the able southern preacher. If there isn't a hell, there must be a hell for the able southern preacher. If there isn't a hell, there must be a hell for the able southern preacher. If there isn't a hell, there must be a hell for the able southern preacher.

Colonel Pleasant A. Stovall, editor of the Savannah Press and weekly appointed by his one-time schoolmate, President Wilson to be American Minister in Switzerland, held an informal reception Sunday night in the home of Mr. McAlpin. Many of his friends who called to congratulate him, Colonel Stovall said for his first Tuesday on board the Cunard liner Saxonia, accompanied by Mrs. Stovall, their son, and their daughter, Mrs. Ruth Mason. Colonel Stovall is familiar with Europe and its people, having spent three years at school in Switzerland. This will be the first experience of the eminent Georgian on diplomatic office. On Monday night Colonel and Mrs. Stovall were the guests at dinner on the McAlpin roof of Mr. and Mrs. David Robinson. Mr. Robinson was associated with Colonel Stovall years ago as business manager of the Savannah Press when Colonel Stovall first became its editor.

"There is nothing in the relations between our country and the one to which I am going to demand any special diplomatic activity," Colonel Stovall said last before sailing. "There is a very large trade between America and Switzerland, and the chief business of the American representative in Switzerland concerns that. I am attached to the Swiss people, and I am much like Americans in their government, their national spirit of independence and in their mechanical and manufacturing skillfulness and I look forward with great pleasure to a sojourn among them."

The Rev. H. L. J. Williams, now assisting at St. Bartholomew's Episcopal church in this city, has accepted the professorship of New Testament in the University of the South at Southwestern, Tenn., and will enter upon his new duties in the fall. Dr. Williams came to New York from Middleville, Ga., several years ago.

Among the passengers arriving on the liner Minneapolis, which left the Rev. Dr. Len G. Bronghton, the noted Methodist preacher, formerly of Atlanta, who is the pastor of the Methodist Church, Oxford, England. Dr. Bronghton comes to New York and is accompanied by his wife and young son.

Colonel John Temple Graves and Mrs. Graves sailed today on board the Imperator, the new giant of the trans-Atlantic-American line for a vacation in Europe. They will spend a month or

more traveling in England and on the continent.

Mr. and Mrs. Charles B. Wood, of Savannah, arrived at the Hotel McAlpin this week. Mr. Wood is on a tour of the Adirondacks to attend the remainder of the season.

Among the students at Columbia University taking summer courses are Misses Nina A. Pace and Adele Rourke, of Savannah. Miss Lydia Polheim, of Macon, has arrived in New York and joined her sister, Miss Lydia Holley of Macon, who has been studying music in preparation of teaching at Bates High College next year. They will return to Macon in about two weeks.

Mr. and Mrs. Charles T. Fargo, of Augusta, have been passing a few days in New York, staying at the Hotel Wolcott.

Mr. and Mrs. Frank M. Chisolm, of Savannah, arrived in New York Monday on their way to Massachusetts to spend the summer.

Mr. and Mrs. W. D. Hicks and Miss Madeleine Hicks, of Savannah, landed in New York Thursday and have gone to Niagara Falls to visit friends. Buyers in the city this week included: Holland & Co., J. C. Chase, for J. M. High, West Point; A. J. Calvert, Madison; J. A. Kirven, Columbia; and M. Bluestein, Savannah.

Visitors in the metropolis from the Gate City during the present week included the following: Mr. and Mrs. E. R. Black, Astor; Mr. and Mrs. M. H. Hoch, Grand; J. W. Brooks, Manhattan; Mr. and Mrs. G. ATLANTA'S STRIDES FROM DAY TO DAY

All the News of Real Estate and Building

The past week has seen few large transfers in the realty field yet the volume of business transacted has been large enough to indicate a bright fall season.

A number of sales agencies have added rental departments in the past week and this is looked on as an indication of a big increase in rental business during the next twelve months.

Among the latest to add this department is the realty firm of Porter & Swift at 130-132 Peachtree. Besides handling general realty this firm will make a specialty of store leases and will make several important announcements in the near future in this line.

East North Avenue Sale.
J. A. Perry has sold to E. W. Richardson through the Burdett Realty company No. 109-11 East North Avenue for a separate consideration of \$10,000. Mr. Richardson will make a payment of \$4,000 worth of property. This parcel is located on the south side of the street, between Duane and Moreland avenues. The improvements consist of two two-story houses.

Sale in Druid Hills.
Mrs. E. H. Chandler has purchased from Mrs. A. H. Whitman a two-story lot with a two-story house on the south side of Palmetto road, near Moreland avenue. The improvements consist of the Porter & George Adams Agency handled the transaction.

Benmore, Perimeter, Toward.
J. B. Thompson has taken out a permit for the erection of a two-story brick building on Perimeter street between Perimeter and Dunwoody. The front floor will be used as a store and the two upper floors as bachelor apartments.

Sale in Kirkwood.
J. A. Hall, Jr. has sold to Mrs. C. R. River a six-room house at 104 Boulevard DuRoi. Kirkwood. H. C. Bailey of the H. W. Davis realty agency, handled the transaction.

His Warranty Deed.
John W. Alexander has conveyed to H. N. Hirsch the northwest corner of 10th street and Hill street, containing 133.70 sq. ft. The deed has come to record.

Sale on Fair Street.
Mrs. M. P. Scott has sold to C. H. Hadden a store and house property on Fair street near Peters. Consideration paid not named. C. H. Hadden is the W. E. Treadwell agency handled the deal.

Manuelo Question Up Again.
The executive question is up again. It is said that a number of members of the legislature have been discussing the possibility of passing a law to take the question of the future of Georgia's government.

However, there is little possibility of any definite action being taken in this region of the legislature, as only a few bills remain to be considered.

Building in Subdivisions.
For the past month a large volume of building permits have been issued in subdivisions. This is due to the fact that the realty firms are the best sales of property for use as the homes of a family.

It is shown that there have been a number of bank accounts started recently for the purpose of building a bank in a still better side of good.

Opportunity For Investments.
One of Atlanta's prominent financiers, a man who has been known to be purchasing land, and Saturday morning this man has been seen to purchase certain shares of industrial stocks and bonds. There are a number of good securities on the market at this time, at prices more reasonable than in the past.

Read the Want Ads and Learn Something to Your Advantage

The "Want Ad" pages of The Constitution have many things to tell you. No matter what you are interested in—whether you want to rent a flat or rent a house—or buy one—they will guide you quickly and correctly.

If you want a typewriter at a reduced price, or an automobile, or a motorcycle, or any one of a hundred useful and pleasurable things, you will find it among the "Want Ads."

The people of Atlanta—during the course of the year—have many things to buy and sell. Like as not you will run across an ad asking for something you have stored in the attic which you'd be glad to sell.

Or you will discover something that you have always wanted, but which you thought you could not afford. Only way you can be sure of discovering these opportunities is to become a regular reader of the "Want Ad" pages. Read them in the future even more thoroughly than you have in the past.

If you have anything you want to convert into money, or some particular thing you want to buy, get up an ad of your own and

The executive question is up again. It is said that a number of members of the legislature have been discussing the question of Manuel's handsomeness in an attempt to keep the question of his fitness before the Georgia voters.

However, there is little possibility of any definite action being taken in this region of the legislature, as only a few more remain until the adjournment.

Building in Subdivisions.
For the past month a large volume of building permits have been issued in subdivisions. This is due to the fact that the realty firms are the best sales of property for use as the site of a new building.

It is shown that there have been a number of bank accounts started recently for the purpose of building a bank in a still better site of good property.

Opportunity for Investors.
One of Atlanta's prominent financiers, a man who has been known to be purchasing land, said Saturday morning that the best time to purchase certain classes of industrial lands and bonds. There are a number of good opportunities in the line of time, at this time, more favorable than in years.

There is a great deal of business on the market now, which has created very little interest in the line of real estate. At a rather low price range of these are Atlanta's industries are now in a good position.

Read the Want Ads and Learn Something to Your Advantage

The "Want Ad" pages of The Constitution have many things to tell you. No matter what you are interested in—whether you want to rent a flat or rent a house—or buy one—they will guide you quickly and correctly.

If you want a typewriter at a reduced price, or an automobile, or a motorcycle, or any one of a hundred useful and pleasurable things, you will find it among the "Want Ads."

The people of Atlanta—during the course of the year—have many things to buy and sell. Like as not you will run across an ad asking for something you have stored in the attic which you'd be glad to sell.

Or you will discover something that you have always wanted, but which you thought you could not afford. Only way you can be sure of discovering these opportunities is to become a regular reader of the "Want Ad" pages. Read them in the future even more thoroughly than you have in the past.

If you have anything you want to convert into money, or some particular thing you want to buy, get up an ad of your own and

Atlanta Should Rear Monument To John Isham Says C. A. Lamar

John Jones street. At the beginning of the century, the population of the neighborhood of pupils was not large and grew gradually smaller as the streets were built and the population was to develop and sink into the boys of that day.

"He was a strong advocate of the poor and didn't fail to demonstrate his faith in it by a vigorous application of the 'birch,' as he called it.

"Among the boys who attended in 1860 were: William H. Thompson, William Allen, Clarence Angier, Charles Pemberton, Hartwell Tarver, Thomas E. Hays, John H. Hays, John H. Hays, Dewey on the Olympia; Homer Reed, Howell Irwin, Edward Roach and Singleton Warner.

"The last boys whom he prepared for the University of Georgia before leaving Columbus were the late John H. Chapman, Henry R. Goetschius, the late Samuel S. Cooper and Maribau Towne, now a lawyer in Brooklyn.

"After he became the principal of Crew street school, where he

Perspiring Feet Ache

The feet perspire abnormally in warm weather, get tired, feel a burn and jump with shooting pains. Polonoxone, a valuable moisture-soluble stocking, closes pores, poor circulation and the millions of foot nerves perspire with burning, jumping and other troubles.

Relief Tablets In a warm foot bath and liberally apply Polonoxone. The burn draws out and the feet feel eased and numb. The burning, jumping, aching and odor, and keeps the feet feeling better.

Tea Dances at Bar Harbor And What the People Wear

WHAT THE PEOPLE WEAR.

What to wear at mid-summer tea-dances is the message which comes from the east. The writer, a woman of fashion, who has been to Bar Harbor, Narragansett, and a number of the country clubs frequented by the world's smart set.

The "tea-dance," as they call the most popular afternoon function now, is the one at which the most extreme fashions are worn, except those of the evening, and the fashion at present has become almost like a uniform, since the skirts are all draped; the corsage cut a little low in the neck, while the unvarying material is of crepe de chine, silk crepon, chiffon voile, or any soft silk or satin of very light color.

"With these costumes sashes of strong color are worn," notes the letter, "and hats are of tulle in the shades of green rose or dull blue."

A Stylish Girl's Costume.
A costume worn by a very stylish girl from the south at one of these tea-dances was of white chiffon voile bordered in black satin. The skirt had large loops of folds at the bottom, making the black border come just above the knee. There were more loops above the border. With this she wore a peacock blue tulle hat and a blue satin sash with a row of folds of black satin introduced at the waist.

These glides which finish almost every gown run well up under the arm and one can not see where they come out as the long and long and finishing them at the back are attached to the top of the glides.

No Flat Shoes at Dances.
I have not seen a flat English shoe for street wear anywhere, nor have I seen them at the most informal country dances. They are all high-heeled and golf and outing shoes, but not counted in the ball room are three styles on the street: Black pumps with large stiletto heels, are worn with stockings the color of the gown.

If the gown is black or dark blue, I notice gray stockings, the color of the gown. For afternoon wear the white stockings and dark pumps are worn, but never in the ball room is this

BRENAU'S HIGHEST AIM

BACK of Brenau is an ideal. The hopes and dreams of a lifetime have gone into the upbuilding of the institution. The fine structures, beautiful gardens and campus, the splendid material equipment and the educational facilities of the college are the results of unceasing efforts to realize a high educational standard.

THE college has not been used as a means of satisfying personal ambition nor to amass wealth. It is the embodiment of a need—a fine college for women where the girls of the South may secure an adequate education without leaving their section.

TO the attainment of this has been devoted not only the energies of capable men and women, but every surplus dollar also has been turned back into the college for its improvement.

AS a result Brenau has become one of the most individual and most thoroughly efficient colleges in the South, and has established itself a leader in progressive educational movements.

IT sends out the young woman of poise, culture and capability, but whose greatest pride lies not so much in intellectual attainment as in the consciousness of womanly integrity.

THIS is Brenau's highest aim—the noblest development of the womanhood of the student consigned to its care.

Allen's Twice-Yearly Shoe Sale

This now recognized economy in the shoe business, begins Monday, August 4th.

In Patent Leather, at \$3.95.

Our shoe buyer, who has just returned from New York, has secured several hundred pairs of the very newest and most wanted style, Colonial Pumps with the Cuban French heel (the shoe of the hour) at an unusually low price.

These we have added to our sale, as well as our own regular stock, instead of marking them at their regular price of \$6 and \$7 a pair. They are offered at the unusual price of \$3.95

This means that we offer the shoe wearers of Atlanta over \$15,000 worth of this season's newest and best styles in low shoes, pumps and colonials, at figures that will yield us less than \$10,000. We do not except a single low shoe. The prices are as follows:

Every \$6.00 Pump, Colonial or Oxford is now \$4.95

Every \$5.00 Pump, Colonial and Oxford is now \$3.95

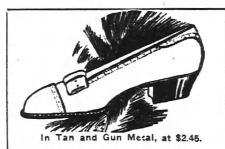

Every \$4.00 Pump, Colonial and Oxford is now \$2.95

As we sell nothing at regular prices less than \$4.00 a pair, except a few white shoes and vici kid house shoes, we cannot group the lower priced lots, but they are marked at various prices from \$2.45 down to \$1.45 a pair.

The Cuban French heel, patent leather vamp, black and white satin combination pumps that would ordinarily be \$6 or \$7 a pair, which we secured at a concession in price, although just received by express, will go in this sale at the remarkable price of \$3.95

In Pat. and Gun Metal, at \$2.95.

In Tan and Gun Metal, at \$2.45.

You know these twice-yearly shoe sales were inaugurated in Atlanta by our shoe man, and from year to year, they increase in importance, and by means of them we only offer you the newest styles of that season, plus the added experience which we gain with each new season's business.

Every white and tan low shoe in the house is divided into three lots and is offered at either \$1.95, \$2.95 or \$3.95 a pair. They are worth just double.

THE ATLANTA CONSTITUTION

Sunday, Aug. 3, 1913

FASHION has decreed sash and here it is shown in several of its latest developments.

The oddly designed coat-dress of changeable violet taffeta, shown on the left, is puffed with gay colored silk in yellow and purple. The sleeves match the girle and the white collar and cuffs are of corded silk.

Blue ribbed crepe was selected for the skirt and frock. The skirt is scalloped down the front and buttoned with white satin buttons, and long satin bound buttonholes. The ribbon

girle is frilled above and below, and ties at the front. The revers and vest are of white satin, the latter being scalloped and trimmed with blue crystal buttons.

The third model has the blouse and double tunic of yellowish crepe de Chine, closely plaited, while the underskirt of white crepe de Chine is gathered at the waist, giving a comfortable fulness. The deep collar and the cuffs are of fine beites, hemstitched and edged with Chiny lace. The black satin sash ties in a broad bow with two long ends, weighted with tassels.

The dainty little frock of palest pink batiste has a sash of deeper rose silk as its only trimmings.

Lord Alfred Douglas, Involved With Wilde, Is Now Writing a Statement in Regard to the Matter.

When He Met Wilde.—Lord Alfred was born on 21 when first he met Oscar Wilde, and is now 42, is, of course, the second son of the late Lord Russell of Bury, and the younger brother of the present marquis, who recently spent the summer of 1906 in the effort made by his father to put an end to Lord Alfred's friendship with Oscar Wilde, which had been a trial which ended in the latter's imprisonment and death. While Lord Alfred Douglas, who already had become a member of the House of Commons, graduated at Magdalen college, Oxford. For the three years that intervened between the time when Lord Alfred met Wilde, the young sonneteer and the brilliant dramatist and poet, had been working hard to reach the apex of his fame. Were inseparable, often sharing the same establishments, and were frequently seen at the same dinners, suppers and similar entertainments, and it has been asserted many times that the friendship between them was the most intimate of any then known. Many of Wilde's most famous works would have been impossible without the aid of Douglas. By Oscar Wilde and Al-

London Theatrical Managers
Put to It to Secure Lead-
ing Ladies.

LONDON, August 2.—This is the time of year when the London managers begin to court their "lions" and attract them to the stage as they do in many cases, but in these efforts the managers are having by no means much success. The reason for this is that it is especially difficult to find lead ladies for both the legitimate theater and the musical comedy. The latter has been successful in obtaining almost any salary she wishes.

About a year ago Robert Courtine was asked to produce a new musical play, and who put on what is probably the best musical comedy of recent years. He had to go to America to get one high and low, for a woman star. At that time there was plenty of money about, and he got a splendid one—Clara Evelyn. Someone told him that Clara Evelyn was dead, so he hired Clara, who was then touring about \$75 a week, a long term contract for five years, and she came over to go to the United States. Courtine's idea was to make her the first American representative to the Hippodrome without an offer of \$40 a week if Clara would perform at the Hippodrome. But nothing has been heard of her by the public here, and she has never appeared on the stage since the Courtine production failed.

“Courtjunge was planning the London production of ‘Oh, Oh, Delphine,’ which was a musical comedy with a rather unsatisfactory run of 125 nights. He looked everywhere, without success, for a new musical comedy as part of the artist’s model. Then someone recommended to him Jim Henson, who had written the happy-go-lucky American performer and without success had been engaged for a fee of \$400 a week for the run. Although she is far and away the best actress in the production of ‘Oh, Oh, Delphine,’ which was shocking; because she was a girl, she was the only one in the box office in the whole 139 nights she came here. She is a girl, unknown to me, and I don’t know whether she has a little or nothing to do in the production. I don’t know whether she has any knowledge and his advisers seem surprised that she is a girl. I don’t know her engagement is \$100 dollars and cents.

At the present moment, George Edward has been engaged to play the part of one of the most fascinating musical comedy comedians in the world, a girl named Sari Petrus. He brought her from Budapest with a great deal of money, and she has been here a long time, but since then she has been lost to him. In subordinate roles, she has been playing the part of a national jealousy of native-born artists to whom Edward had been engaged to play the part of a girl.

Prisons of Portugal Are Denied—Prisoners Happy and

(Copyright 1913, by Curtis Brown.)

London, August 2.—Some weeks ago the civilized world was shocked and appalled by the Poyasagee business of Bedford of the treatment of political prisoners in Portugal. The details of the cruelties and descriptions were later forthcoming, but chiefly from sources of doubtful authority. It was not until this morning that the truth was plain. It was to discover the true facts that I have written this review. It is a realisation of prejudice that your correspondent has made the fullest possible use of the information at hand to present conditions of the political prisoners in Portugal and their imprisonment in the various prisons of the penitentiary and leprosy that the press has not attacked. The following story is his account:

Lisbon, July 14.—After the fullest possible inquiry into the conditions of the political prisoners in Portugal in the two attempts to win back the country for Manuel and the monarchy are now living in the penitentiary and leprosy prisons, the writer's opinion is that the press has not done justice to the people that have been

old of their terrible hardships. They participated in up way or another in armed invasions of the country, and they were the first to desert, not only to the republican institutions but to the republic itself. They were the first to desert, not only to the republican institutions but to the republic itself. They were the first to desert, not only to the republican institutions but to the republic itself.

presided portion of De Profundis. White wrote while in prison in a document what he himself called "mischievous lies," discovered by White's self-proclaimed literary executor, John Edgar Hoover. The lies, though addressed to me, amounted by the time they were published in the Times to a full-scale attack. I should not be made public until 1960, and I would be powerful against me, as I was I would have depicted that document of mine as a result. However, that action would result in my being a traitor. When I brought it out for revealed for the first time, I was a traitor. I was a traitor, knowing which I can now proceed to demolish it with profane. I am now a full statement regarding the mistaken attitude toward me, afterwards, and the writing of the unpublished part of De Profundis. I am now a traitor, and I shall reveal the details of a revenge, to vilify me while living and to scorch my name and memory.

A group of royalists captured the Dowager Empress of Bedford palace of friendship with their jailers, and treated, not as common criminals, but as equals, who, in the game of political intrigue, have been unfortunate enough to have lost.

The pententary, Portugal's chief prison, lies some distance outside of Oporto. Out of the prison the city you pass the military barracks, from which marched forth the few hundred troops who responded to the call of the republican plotters, and who, because of the muddling of the officers, carried the revolution through to success. Built in 1886, the prison is a fine building. Located in Belgium, the pententary is one of the best prisons I have ever been in—and I have been in many not.

Worst Hated Task — Dr. J. Edgar Hoover, the government's top law enforcement officer, accompanied me to the penitentiary, accompanied me to the prison, and accompanied me to the various changes he had made since he took the institution over from the military. He showed me the new water pumping installation by which all prisoners are now compelled to raise the water to the second and third tiers of the prison. He showed me the modern steam pumping machine which he had installed. He showed me the new water tanks of one of their worst hated tasks — the raising of water. He showed me an intricate barrier of steel bars, wire-work and glass, the prisoners feared. **Jud Allan Has Leased a Wing
of a London Religious
Institution.**

LONDON, August 3.—Maud Allan, the Franciscan girl who, some four or five years ago, was the sensation of the world by her barefooted dancing at the Casino in Monte Carlo, has just returned on a long tour in South Africa. She just took a twenty-year lease of the famous "Gaiety" theatre in the city park, where, in an enormous hall, she will give her dances for three hours every day. There are some, however, who question whether this is a wise thing to do, and they would advise the place for a minister's son, rather than for a dancer. On the management of the theatre, she seems to have no opinion, and she seems to see any of the students of the art as a person who has secured an apartment in Ridgeway Gardens, on the outskirts of the city, and who has invited a number of American visitors to London because they are going to see the new hotel and the hotels situated therein. Maud, however, became so popular socially that she has been obliged to give up the small for the entertaining she was used to do, and has taken her home to the "Gaiety" theatre, where she has engaged a large number of waiters and she has filled the house with furniture and other things. She has been showered upon her by society with a capital "P."

Although she has made her first big success in London, and

theater, she has not been seen since. Many of us had hoped that she would be able to come back and hold play again in London. But the managers are unwilling to do so. The managers now demands, despite the fact that she has been in the country for some time, that she must first come to the Palace theater, and when she has left, she must offer from Klaw & Erlanger or over the radio. Now she is preparing for a tour of the continent.

When black with orange, red or white stripes it is most effective. It will undoubtedly remain an ultra mode, as it is priced at \$45 in all shops, and if you were to make it, the cost would be large as it requires a quantity of silk, to say nothing of your time.

Showroom of Atlanta Show Case company.

A visit to the office and showroom of the Atlanta Show Case company is a pleasure, on account of the skillful of Pat McGuire, the ever-smiling sales manager. Mr. McGuire

states that, as far as the show-case business is concerned, they have certainly brought New York to Atlanta. They have recently added a nice line of display and window fixtures to their

already immense line of show cases. He adds that this is one thing that has been lacking in this city, to some extent, and that many merchants have had this as an excuse to go to New York on their paying trips.

when turned toward business matters. This firm is under the management of

Miss Jacqueline Van Raden, and has been successfully operated by her for the past five years. They are located at 4 North Forsyth street, and their clientele includes the very best business houses of Atlanta and the surrounding towns. The quantity of business handled from day to day shows that Miss van Raden is quite capable of taking care of a big concern handling big orders. She has had fourteen years of business experience, and the ever-growing prosperity of the company is an indication of the confidence of the public.

Miss van Raden is also president of the Eagle Stamp works. They are manufacturers of rubber stamps, stencils, seals, etc. A modern plant, supplied with the best machinery and tools, takes care of a business which extends all over the southern states.

Miss van Raden is particularly articulate and the merchants attending the convention shall pay the company a visit during their stay in the city, and will take pleasure in showing some of the latest ideas in office work and form letters as applied to modern business.

O. L. Johnston, southern sales manager for the Carroll-Adams company, of Baltimore, Md. returned to the latter part of the week after a successful trip through south Georgia. He will stay in Atlanta for the Merchants' convention.

It may be a new idea in business service. The most important thing in any modern business is service. If you can improve your commercial service to your customers as a result of this convention it is well worth your closest attention.

When you do come to the city attend every meeting and get the utmost you can out of the things which have been arranged for your welfare. Take part in the discussions. This way you will get the best out of them. And also attend all the social, barbeques, ball games and theater parties. They will all do you good and make you go back refreshed and rejuvenated for your work.

RONA COCOA MAN OFF TO NEW YORK

A. J. Edmondson Goes to Attend Sales Convention at Home Office of Van Houten Company.

A. J. Edmondson, the popular southern representative for the Van Houten Cocoa people, left the city last Thursday for New York to attend the annual salesmen's convention of his company at the home office there. Mr. Edmondson regarded it very much that he had to leave Atlanta at this time, but stated that he would start on his southern trip on the 18th of the month and would be back in the city in about four weeks' time.

Mr. Edmondson is one of the most progressive salesmen in the south and it is a liberal education to listen to some of his experiences on the road. He is working hard to popularize and spread the sale of Rona Cocoa, his firm's specialty, and is doing many things for this end. He is very liked over his latest achievement in this line. He got a lot of real tin signs with the name of the brand on them and got the negro wagon drivers to tack them in their wagons. He stated that 16 cents would secure the privilege from a negro after time and that he was tickled to death by the way he saw the signs all over the city now.

Among the John Silver & Co. salesmen who have reported into the house for the convention are J. H. Jeter, Burke Whitman, A. W. Hughes, H. T. Burton, V. M. Hester, H. A. Jewell, W. W. Hillborn, H. St. Braxwell, John H. Lotters, H. C. Dickinson and Sam Johnson.

K. D. Brobston, with the John Doern company, of Atlanta, came in Wednesday night from a trip through the north Georgia territory, and told a splendid story of crop conditions there which will be found in another column. He went back to his Athens territory on Friday. Mr. Brobston's home is in Athens.

W. P. Specht, Jr., of the Spratt Chair company, has just returned from a five days' trip on the Georgia railroad. He brought in a nice batch of orders, and talked enthusiastically of business prospects.

Dobbs & War announce that the following of their sales force will act as hosts for the coming convention: E. E. Fulton, O. W. O'Donnell, E. H. James, E. L. Herndon and W. J. Weems.

ODDS AND ENDS

ONE of the chief reasons why so-called "clear" soups are cloudy is because every trace of fat has not been removed from the stock. Allow the stock to become cold and solid, then remove all the grease and wash the pieces of meat in cold water.

DISCOLORING ivory may be restored to its original whiteness by painting it with spirits of turpentine and putting it out in the sunshine for two or three days.

In washing dishcloths instead of using soap or borax put a quantity of soda in the water and boil the dishcloths. The grease and soda make a soap that does its own work.

If you wash flower cuttings in bowls while the plants are small, put them in small crocks. As soon as the crocks are filled with roots, then begin blooming, especially geraniums.

One clean a silver spoon by pouring a quart of an ounce of salt of lemon, put it into a quart of water, steep the spoon in it. When it is clean, rinse well. This quantity will clean a large spoon.

WHERE wall paper has been stained with grease, brush it with French chalk, should be used to remove the stain. The chalk must be increased in a quart of water or the solution, held against the wall over the stain and then pressed with a very hot iron, his being repeated once or twice if the stain is an old one.

An economical way for stain bread is to cut it into thin slices, which are then placed in a pie dish, sprinkle a few well-shaded currants between the layers, and bake in a moderate oven for an hour and ten minutes and add to the dish in which it is baked.

MANY housekeepers have trouble with keeping anything that is put up in jars. If however, after a little of the jar is sealed with a mixture of beeswax and resin there is no danger of getting it. To make this sealing mixture put two ounces of yellow wax and four ounces of resin in a small tin can, which is then set in a larger pan of hot water. Stir constantly until the wax and resin are well blended. Apply while still liquid to the outside of the corked jar or tin.

A DIFFICULT PROBLEM

BY EDNA DIAN.

THE world is just as full of poor relations now as it was in the days of the great depression. Very many of us play the role of the miser, but like the miser, we are not in the family and rhyme, which has a "tell, smaller ones to life." Some of us are so poor but that we have still power of relatives clustering all around us.

These facts are so well known, and the term is so common both in life and in literature that one is always surprised to hear well-to-do people commiserate upon the number and variety of their next several poor relatives, as though they were peculiar to themselves. Poor relations do not always make themselves known to their kin of the same circumstances - and they put up with and inevitably in the path of those in the family connection who have prospered. These latter may not have prospered very greatly, but even a slight degree of success has put them in a position where they can be particularly remarked, the closest friend in mind and disposition of the family tree. But in a series of back streets, shabby clothes and perpetual need, even such choice friends do not greatly shine.

These reflections were evoked by the famous remark of one of the best of women.

Even Lamb's whimsical essay is more sad than glad. There really isn't much fun either in being or in having the poor relation. From whichever end the condition is contemplated, it must be considered chiefly as a means of discipline.

But do not imagine that you are singular in being or in having one.

A VERY CHIC CHAPEAU

COURTESY

One doesn't need a distracted mother to one who, as the saying is, "show us earth do you manage to have your children so well-behaved?" Mine are simply savages! They shame me at every turn.

"Perhaps you are savage," said the visitor, with a smile that barely escaped sarcasm. "I treat my children as parents who owe their own souls. I know that to receive courtesy I must give it, and by daily attention to the little breaks, I keep them well drilled in the greater decorum."

All this, if all mothers were as wise as this, what good manners the world would see! There would be no such thing as a "savage" child, no such thing as a mother "shamed at every turn." Instructions in the polite form of behavior bear little or no relation to the child's own life. It is no use to say, "Be kind, be so today," if you expect to ride easily when the same thing is done tomorrow. Every manner like this, faces, must have regular attention, but it must all be done in a spirit of self-interest.

As this astute mother says, "I must first be allowed to feel that his soul is his own," that all the "good" the world has to give depends upon himself. But a kind heart, being at the root of all gracious behavior, the manners are a precious frosting if the child's character is collected.

So let the worried mother begin by elucidating the homely precept of the golden rule. To do unto others as you would have them do unto you, is to be kind, merciful, considerate. But this into the child's heart with little tender stories of rewards that came to the kind-hearted, and punishments that came to the harsh and coarse.

POISE

Perfect by Simple Exercises.

BY LUCILLE DAUDET.

JUST now and then we catch a glimpse among the throngs of men and women who daily passing us of a figure so beautifully upright and graceful that we remember it long after it is moved beyond our vision.

I am not one of those who believe that a splendidly poised body should be a rare sight. It ought to be something we see always, so that we are disheartened by an exception to the rule. But it is a rare sight indeed, and simply because most of us fail to make the best of our bodies, just as we fail to make the best of our selves, by forgetting to define the very things most important to our welfare. Even the children, whose bodies ought to be poetry of motion, youth and grace, begin in their school days to grow careless to launch their shoulders, drop their heads and walk as though there was no special joy or freedom or opportunity in the exercise that we all take for granted, unless illness comes along and we are deprived of it.

For the ordinary woman to obtain a beautiful carriage is not half so hard a task as many women suppose, just because so few of them possess this truly wonderful beauty. First of all, beautiful carriage depends on two things, not on one—the pose of the body and the poise of the mind. The mental attitude has a great deal more to do with the bearing of the body than most of us suppose. Note how the body expresses every emotion we feel: fear, anger, happiness, so it is natural that our whole attitude toward life should affect the way we carry ourselves. The first thing any woman who looks to obtain a graceful carriage of the body should do is to make sure that her mental attitude on life in general is a hopeful one, that she believes in herself and that opportunity to prove the reasonableness of this belief comes at some time or in some fashion to every one of us, herself included.

So it would say, as the first rule to observe in your attempt to obtain a beautiful pose, hold up your head, lift the chin a little, so that your friends can say to you, "You are looking up."

It is probably true, as charged, that many a woman does not really know what beautiful carriage is. But she that has eyes to see need not long remain in ignorance on this point. If she lives in a city that boasts of an art museum, let her study therein the genuine or the replicas of the old Greek statues, whose subjects are standing and leaning, walking and running, always with perfect grace and freedom. The Greeks of old not only understood what beautiful carriage is; they also had joy in their bodies. Healthy, natural joy—and they gave it to their practice in physical exercises that was required to keep them in supple and responsive condition.

Here are some simple bodily exercises that will aid any woman to secure a proper balance and control of her body.

Stand firmly on both legs. Change weight, making right leg the strong one. Incline head to right, body to left. You are now in harmonic balance. By inclining the body to the right you become awkward and if this is continued in you will probably fall; so you may learn by this simple exercise the value of balance and so begin to learn to stand correctly. When the weight does not rest alike on the two feet you must always bear in mind the fact that the head sympathizes with the strong leg and that it should lean over so slightly to the side of the leg that bears the weight and so show nature's line of beauty.

Another exercise which will help you to be graceful is equally simple. Put the body's weight on both feet, heels together, toes apart. At the waist line rotate the body to the right as you simultaneously turn the head to the left. Be sure that this rotation is made by the waist and not by the thighs. Now turn about, rotating the head to the left and the head to the right. Practice until you secure real flexibility at the waist line and you will find that you have secured the most important aid to grace which so largely depends on control of the muscles at the waist.

Then, when you have learned to stand well and to have real use of your body, learn to walk all over again—learn walking as an art. Do not walk as the most of us do, with our legs stuck stiffly out, the body dragging and the arms swinging with no life or ease.

There are almost as many ways to carry the body as there are people in this world, and yet there are only a few simple rules for the perfect walk. The line of the body is of great importance in the perfect walk. There is no better practice to observe in securing the perfect walk than the often recommended one. Place a book or bundle on your head and walk a few steps in the perfect line. Then draw a line along the floor, and see how straight your average walk is. Each step should be a foot apart, measured by your own foot, and the feet should be placed steps left the thigh forward, letting lower leg and foot hang loosely. The unbending of the knee plants the foot immediately as weight bears on it. The body and head should swing in sympathy with every motion of the legs.

If the water in vases holding cut flowers is replenished each day and the stems of the flowers washed off they will last a long time. Washed of salt, walking and running, always with perfect grace and freedom. The Greeks of old not only understood what beautiful carriage is; they also had joy in their bodies. Healthy, natural joy—and they gave it to their practice in physical exercises that was required to keep them in supple and responsive condition.

CRACKERS PLAY BALL LIKE RAG WINNERS

Continued From Preceding Page

Brackenridge twirled for the Vols. He pitched a pretty fair game, but the local bunch bunched in three innings and these, coupled with some breaks in his support, brought home the second game. Here's how the runs were scored. Daley greeted Love with a Texas leaguer to open and after two had been retired, Noyes crashed a double against the right field fence, scoring. Daley with the first run of the game. The crackers tied it up in their half. Long opened with a smashing single to center, was sacrificed to second by Taylor, who was sacrificed to short by Daley and scored on Smith's single to center. With one gone, Blizard drove a single to left in the Crackers' fourth inning, scored on a sacrifice fly by Agier to right, scoring Blizard and holding Howard to third. Daley drove home the second run in the fifth. The Crackers got another in the fifth. Long got a line on Love's error and Noyes drove a sacrifice to third. Agier and scored when Lindsay let Smith's put fly drop safe by trying for the bat. When it was called a walkoff getting two home as the result of a sacrifice fly by Daley.

H. E. Jessup, with the Lamar and Hamilton shoe company, is back on the job since last Monday after his two weeks vacation.

Walter Richards, of the S. P. Richards company, is back from his vacation and will mingle with the convention visitors all next week.

N. K. Smith, selling Battle Axe shoes for the Stephen Feltz shoe company, of Richmond, Va., in Georgia, says that he and his firm have gotten out over 1000 invitations to merchants to visit their display during the merchants convention. The line will be on exhibit at the Kimball hotel, in charge of Mr. Smith and R. T. Hannon, from the house. Longshore putter, president of the company, and other officers may be here during the convention. For over ten years Mr. Smith has made large sales twice a year by inviting these merchants up to Atlanta.

Williams & Meyer, of Baltimore, Md., have opened their new show rooms in the Argon hotel, in charge of Z. M. Williams. They will be here for about two months, and have taken eight-

large rooms to display their line. This consists of holiday goods and novelties, and is one of the best of its kind.

E. B. Shyer, with the Consolidated Paper company, came in Saturday with a nice bunch of orders.

The S. P. Richards company were moving on Friday because they had passed their record in the stationery department for the month of July, when record was established in July, 1912.

The Atlanta Paper company are throwing their entire plant open to the visiting merchants next week, and it is expected that quite a number will take this opportunity to see the wonders of modern paper and its products.

The Hite & Hutehins shoe company, of Atlanta, have called all their salesmen in for the convention, and are expecting a big business. They have a number of especially attractive lines to offer the merchants which they have made special for the occasion.

Bill Quarles broke up housekeeping last Thursday and went to boarding. The true reason is not known for certain, but it is rumored that since Bill's recent peccoliar activities, his appetite has been so large. Quarles refused to provide meals for him any longer.

H. J. Atwood, with McDord-Stewart company, has returned from a two weeks trip to New York and is out in his territory again. H. A. McDonald will return this week from the up-sons' convention in Toronto, and will be with his trade again the latter part of the week.

J. L. Shipp, sales manager for Robert M. Green & Sons, has just returned from Atlantic City. He spent several days there and then jumped into Brunswick, Ga., and closed a nice fountain deal this week.

Paine & Stamps are list in receipt of a letter from J. C. Owens. He writes from his home in Concord, Ga., and announces that he will be on vacation there for the coming week. He states that he will spend his mornings at preaching and the afternoons out fishing. Those who know Mr. Owens will realize that his mornings will be the times when he will enjoy himself, but he will probably rest better in the afternoons.

J. C. Mason, with the Consolidated Paper company, will be in the city for the convention week, meeting his customer friends.

J. L. Nisbet, in the office for the E. Adams company, returned from his vacation last Monday after putting in most of the time at Piedmont lake.

The Dougherty-Little-Bedwine company salesmen who will be in the city for the convention are A. M. Wilkins, F. P. Seay, A. S. Wilkins, J. M. McRibbin, J. O. Castlebury, T. L. Barron, G. G. Jefferson and P. S. Dunlap.

For the Bathing Maid

SATIN is the material above all others for the really smart bathing suit this season. Mohair is still used by the woman who prefers service to the height of fashion, and a few tulle suits are seen, but this latter fabric is not as popular for the purpose as it once was, as it has been found to split easily after it has been one or twice immersed in salt water. By long odds the most popular color for the bathing suit is black, as it combines so effectively with the bright silks and satins that are now used for trimmings. Some maidens are still partial to blue in various shades, so suits of this color are also seen, as well as fresh costumes of white satin, bright red and Nell rose.

Nearly all the suits are cut in the one-piece Russian blouse style, with separate bloomers or night. This blouse comes just to the knees and is fastened loosely with a belt or sash. A very pretty suit is of black satin, fastening invisibly at the side of the front. It has a Balkan sash of gay striped silk that goes twice around the waist and knots at the left side. Another just as effective is of black satin, laced down the front with silk lacings in a vivid shade of Nell rose. It has a sash of satin of the same color. More modest, but still extremely smart is a black satin suit with a rather loose collar and garnitures of fancy black and white silk. A suit of bright blue has an odd vest effect in white satin, and another in navy has curious rounded revers and trimmings of white satin.

Bathing caps are so pretty this year that they deserve a chapter to themselves. They are mostly made of satin of gay colors, with rosettes at each ear, or in demure Dutch effect, or trimmed with gay ribbon standing off at the back like the hats, or made of combinations of plain and fancy satins.

"GUNBOAT" SMITH "FIREMAN" MATTY

Next Bout of Interest—Former's Title Claims Rest on Showing Against the Veteran Ringster.

BY JAMES J. CORBETT.
(Former Heavyweight Champion of the World. Written Exclusively for The Constitution.)

New York, August 2.—(Special.)—The first looking back on the cards for the coming week is the Jim Flynn-Gunboat Smith bout, which will take place at the Madison Square Garden arena next Friday night.

It is surprising the amount of interest that has been aroused around this bout, considering the fact that Smith is a former champion and Flynn is a former champion. Mathewson Greatest Pitcher Baseball Has Ever Produced

—McGraw

The Giants' veteran twirler, who is having his best season in this, his thirtieth year.

By Mid C. Kearney.
Year after year column and column after column, the baseball world has seen the rise and fall of many great pitchers. But none have reached the heights of John Mathewson, the greatest pitcher the game has ever produced.

Mathewson's record. The man who has won more games than any other pitcher in the history of the game. Mathewson's record. The man who has won more games than any other pitcher in the history of the game.

CLARENCE GRIFFIN WESTERN CHAMP

New Tennis Star From Coast Plays Through Tourney, Defeating Joe Armstrong, in the Finals.

Chicago, August 2.—Clarence Griffin kept western tennis honors for California today by winning the final match of the western tournament at the University of California.

Griffin today played much the same game as he did in his previous matches. He was in excellent form and defeated Joe Armstrong in the finals.

No-Run, No-Hit Game. Ronsdale, Va., August 2.—After having led the Newport News team down to two hits on his last appearance at the Newport News, Ronsdale today led his team to a no-run, no-hit game.

REAL ESTATE FOR SALE AND RENT.

**A HARBINGER
OF PROSPERITY**

THE SEASON'S first bale of cotton has just been delivered at Albany, Ga., and sold for 17 cents per pound.

This means much to the South.

It means much to the State of Georgia.

It means much to Atlanta.

What is more, Secretary McAdoo has just announced that Uncle Sam is to deposit \$50,000,000 in the Southern banks to assist them in financing the South's great cotton crop. We consider this the most important act of the Wilson Administration, and believe that it will result in great benefits to all sections of our country. Verily, the Wall Street croakers have croaked their last croak.

Bringing the matter home to us, we are reliably informed that the Atlanta banks are to be favored with a liberal portion in the distribution of the Government deposits.

What does it all mean?

To the wise investor, we say most emphatically, it means that NOW is the time to BUY.

With bountiful crops assured, and plenty of money in sight to finance them; with the world consuming more and more of the South's fleecy staple as the years go by; we candidly believe that this city is entering an era of great prosperity, and that there is soon to be a great enhancement in realty values.

Let this remind you that we have listed with us the most central unimproved lot in the city, and at a price that will net the purchaser a handsome profit within the next few years.

40x100 FEET

ON WALTON street, adjoining the Walton

U. S. PROTECTORATE BARRED NICARAGUA

Opposition of Senate Will Result in the Withdrawal of Bryan's Treaty.

Washington, August 2.—The protectorate for Nicaragua, embodied in a treaty suggested by Secretary Bryan, probably will be abandoned because of adverse action by the senate. Foreign relations committee, chairman Bacon was today instructed to ask Secretary Bryan to transmit a new Nicaraguan treaty limited strictly to the proposed \$1,000,000 purchase of canal route and naval base concessions.

The fight against the proposal, however, was pronounced in the committee today that it was decided it would be impracticable to attempt a settlement of the policy at the present time. It was decided to ask Secretary Bryan to withdraw the treaty and limit the Nicaraguan treaty to those originally embodied in the treaty.

To Cut Out Protectorate. Intimations had been received by the committee on the committee that the president and Secretary Bryan would be willing to let the protectorate policy aside temporarily, and it is expected that the completed draft of the treaty will be ready within a few days without the provisions giving the United States control over Nicaragua's future.

Chairman Bacon was instructed to ask Secretary Bryan to submit a treaty limited to the following provisions: The grant of Nicaragua to the United States of a perpetual and exclusive right to build a canal across Nicaragua.

A ninety-nine-year lease on a naval base on Fonseca bay and a ninety-nine-year lease on the Corn Islands in the Caribbean Sea. The payment to the United States of Nicaragua of \$1,000,000 in return for these concessions.

These terms are identical with the treaty as originally proposed by Secretary Bryan. It is expected that the amendment by which an American protectorate would have been established.

No Final Decision. The senate committee will not definitely settle the question of future protectorates in Central America, however, it is understood that the administration is inclined to withdraw the suggestion for the present in order to secure an early ratification of the Nicaraguan treaty. A strong opposition was led in the committee today by Senators Charles Clark, of Arkansas, Williams and others, who were opposed to any action by the United States toward the territory of Nicaragua in the Central American countries.

Other senators of the committee defended the policy with equal vigor. A vote was proposed to settle the question, but most of the senate committee refused to register a final decision at the present time, and the proposal for a vote was withdrawn.

Opponents of the proposed protectorate had made it clear that it would be impossible to secure ratification of the Nicaraguan treaty in the present congress if the so-called final amendment was understood to have been passed. Secretary Bryan is content to let the treaty stand.

TWO COMRADES KILLED; 500 MEN GO ON STRIKE

Superior, Wis., August 2.—Struck over the accident Thursday evening when two of the following were killed, 500 men employed on the Alouette ore docks at West Superior, who have been on a strike since the accident, refused to resume work under conditions which they claim caused the accident to be removed.

During yesterday eleven trains of ore reached the dock. Many more will arrive today and it is but a question of time when the mines will have to shut down for want of men. Seven ore boats are tied to the dock or anchored waiting to be filled. More men are due to arrive within the next 48 hours.

The strikers yesterday were granted a short hearing by J. C. Morrill, dock superintendent. Two hundred men appeared at a mass meeting of the men were read to Mr. Morrill, who is reported to have said that he could do nothing for the strikers. Strike action was pronounced in the committee today that it was decided it would be impracticable to attempt a settlement of the policy at the present time.

It was decided to ask Secretary Bryan to withdraw the treaty and limit the Nicaraguan treaty to those originally embodied in the treaty.

SHOT WOMAN 3 TIMES AND KILLED HIMSELF

Abraham Fink Enraged Because Young Woman Spurned His Attention.

New York, August 2.—A well-dressed middle-aged man and a handsome young woman quarreled today on Fifth avenue until the man suddenly drew a revolver, shot the woman three times and then blew out his brains. The man died instantly and there is little hope that the woman can survive. He had \$1,500 in United States currency and a large quantity of Canadian money in his pocket.

Letters found in the dead man's pocket led to the belief that he was Abraham Fink, of 84 North Division street, Buffalo. The letters were signed by Violet Rogers, of 12 Vine street, Buffalo. The letters were mailed from a hotel in Atlantic City and were dated "Your darling, Violet, and your devoted, Abraham."

Witnesses of the shooting say that the woman was wearing a diamond necklace and a large diamond ring. The man was wearing a diamond ring. The woman was wearing a diamond ring. The man was wearing a diamond ring.

At the hospital the woman recovered sufficiently enough to give a short description of herself. She said that she was Rebecca Silverman, 21 years old, and that she lived with her parents in this city. She was a widow of a man who was a soldier in the United States army.

After questioning she admitted that "Violet Rogers" was the name she assumed when she was in Atlantic City three weeks ago. She asserted she had left him in Buffalo and come to Atlantic City where she had met him. She had left him in Buffalo and come to Atlantic City where she had met him.

M'NAIR'S THROAT CUT IN QUARREL OVER GIRLS

United States Deputy Marshal Objected to Jacksons Talking to His Companions.

Pensacola, Fla., August 2.—United States Deputy Marshal Cull McNaair had his throat cut at the picnic near here and Sam and Rutha B. Jackson, brothers of Flomonia, Ala., are in jail charged with the crime. According to witnesses McNaair and the girls, Marie O'Brien and Freda Hill, were seated, chatting, when the Jacksons came along. One of the girls spoke to the boys, whom they had never seen. It is said, and they joined the party, which appears to have caused the trouble.

A quarrel ensued and McNaair is reported to have drawn his gun and shot twice at the Jacksons. During the fight that followed McNaair's throat was cut from ear to ear and he was otherwise cut and stabbed. Bond has been refused by the brothers.

NEGROES TO HAVE TREAT IN THE "BIG CITY FOUR"

Atlanta's colored population, or that part of it which loves music, and that is an exceedingly large one, has a rare treat in store for it this week, according to Edward Buckner, Jr., owner of the advance agent, for the "Big City Four."

The "Big City Four" are supposed to be the best quartet in existence, and it is the way in which their advance man puts it, and every colored man and woman ought to hear them sometime during the week at the Majestic on Auburn avenue.

Among his race Buckner is regarded as an authority on theatrical and musical matters, as he managed Black Patti on her appearance here and he also managed the "Smart Set," a negro company that made a big hit.

Effective Home Remedy For Lung Trouble. It is a serious matter when the lungs are affected. A trip away or to a sanatorium is not only expensive, but it involves separation from home and friends. Some are benefited, but few can safely return. Eckman's Alternative is effective for home treatment. For example: 221 Adams St., Boston, N. Y.

THEY SAID—what did they say? What mattered what they said? They were competitors much perturbed—so what could they say? What must they say—being competitors—much perturbed?

4,000 DEALERS will handle Maxwell Motor Cars for the season of 1914. Season dated from August first—deliveries at new prices now being made.

THAT'S OUR ANSWER to all they said. That tells the story. What is it they say about "he who laughs last?"

MAXWELL CARS WILL DOMINATE the trade for 1914 in the three big classes which command the greatest popularity.

THE FULL SIGNIFICANCE of the line "4,000 dealers," may not have occurred to you. It means, in a word, that we not only have the cars the connoisseurs desire, but that we are now ready to manufacture them in numbers sufficient to supply the insistent demand.

YOUR DEALER SEEMS TO HAVE a kind of sixth sense when it comes to picking the winner in the selling field from season to season.

HE KNOWS: He has his finger on the pulse of the buyer, his eyes on the makers all the time. And he seldom guesses wrong. The successful dealer never—that's why he succeeds.

THIS IS A FAST-MOVING, quick-forgetting business. Watching it is like looking thru a kaleidoscope. It is ever changing.

THE DEALER KNOWS—and you can't go wrong by following his lead for, you see, he is looking for the same things you are seeking—only from a different angle.

HE WANTS CARS that sell themselves. You never knew a dealer to go gunning for trouble, did you? Or looking for hard work?

NOT HE. HE FOLLOWS THE TREND of fashion in design, the progress of the science of metallurgy and manufacture. And when he sees a concern leading in these, he goes hot-foot after that line of cars.

WE HAVE CONCENTRATED our tremendous factory facilities; re-arranged and re-equipped the plants for economical production of automobiles in large quantities.

AND EACH MODEL WILL dominate its class—because a better car—better material, better workmanship and better finish for the same or less money.

DO YOU WONDER dealers are clamoring for the Maxwell line for 1914? They would belie their reputation for astuteness if they didn't.

WHY, LAST WEEK we shipped the first 50 cars of the Maxwell "25" model to 50 points in the United States, and invited all dealers to come and see and try out this wonderful car.

THEY CAME, they saw and the new "25" Maxwell conquered. It was great to see their enthusiasm when the car, carrying five dealers aggregating 1010 pounds, sped up "Abbey Hill"—the steepest grade on Manhattan and a double-S turn—on high gear as if it were on the level.

OVER AND OVER AGAIN they put the car to the test—climbing the hill at all speeds down to 8 miles per hour on high gear—just a "pullin'" all the time.

BUT WE ARE DIGRESSING—so enthusiastic about that wonderful "25" we forgot our text for the moment. Let's discuss the entire line—for there isn't a dead one in it—no model that is a load on the others. Each is supreme in its class.

TAKE THE "50-6" for example—now thoroughly tried and proven. 1913 output all sold. Deliveries of 1914 model—left-hand

drive with right side drive optional—begin August 15th.

1914 PRICE is \$1975.

THERE'S A LINE that will create consternation in the trade. They all expected it would be \$2,400—in fact we said so. That was the price we had decided on, but—

PERHAPS, YOU'VE NOTICED there's a wicked war on for supremacy in this class of car. We concluded that, so long as other makers had started it we would give them a real six at a real price and see how far they can go. Watch it—it will be interesting—and the buyer will be the beneficiary.

IT WILL BE UP TO makers of \$3,500—\$4,000, yes, and \$5,000 sizes to demonstrate wherein they give the difference in value.

AND WHAT ABOUT the manufacturer who stuck to fours for one season too long? Having himself failed to progress he would stop all progress. He would sweep back the sea with his tiny whalke broom! He protests that folk will still pay \$2,000 for fours—and convinces no one but himself.

IN SEVEN PASSENGER CARS the six is now supreme. It is not coming; it is here.

THEN THE MAXWELL "35"—This is, we firmly believe, the greatest car ever made in the so-called intermediate price class—a big five passenger car for that great class of buyer who wants all there is of comfort and power, at a price he can afford.

1914 PRICE IS \$1085 without and \$1225 with electric starter and lights. Equal this if you can—in a car of anywhere near the quality.

BLOC-CAST MOTOR—fourth year unchanged. A motor such as you can't surpass in a \$2000 car. And all other features equally excellent. This car will lead—distance all others in its class, which is to say anything under \$1500.

AND FINALLY THE "25"—the car the trade has been talking about, looking for, waiting for.

IT IS HERE—WE ARE DELIVERING—and while we may not hope to supply all who want them, we will be able to appease 30,000 buyers during the next twelve months.

YOUR ENTHUSIASM will know no bounds when you see and ride in this "25."

THIS IS A REAL AUTOMOBILE—full 25 horsepower, bloc cast motor; 103" wheel base; same size tires all around, 30 x 3 1/4; full five passenger body; 3 speed selective transmission; cone clutch; worm and sector steering gear; left-hand drive; center control; magneto—all the features of a high priced car.

AND AT A PRICE no other maker has ever before been able to produce such a car—\$750 plus the freight.

THE RESULT OF MORE concentrated experience, engineering and metallurgical knowledge, manufacturing skill and financial resources than any other, this car justifies our efforts and fulfills our fondest hopes.

IT WAS DESIGNED to meet the ideas and the needs of tens of thousands of discriminating buyers—not beginners but experienced motorists—who must consult the purse and yet who detest and decline to wear a uniform and are willing to pay a little more for a car that is a lot better.

WE WILL BUILD 30,000 of this model; 12,000 of the "35" and 2,000 to 3,000 of the Maxwell 50-6 in the next twelve months.

THAT'S SECOND LARGEST in the world—and still we are not satisfied. Watch the Maxwells.

A SERIES of THRILLING STORIES of EARLY WESTERN MINING.

DAYS

The Mariposa War

THEY were both miners and up where the timber grows big, and owned claims on the same gulch, but were neither friends nor well acquainted; otherwise they would have been in Mariposa, to pass down in district legend, even though it escaped the light of school histories. But there was a war as any man in Mariposa well testifies.

Bill Thompson stood six feet three in his stocking feet, and wasn't given to much conversation. He owned Number Four on Mariposa, had good ground, and worked it well. Jim Tibbets owned Number Two on the same creek, but didn't work it, save for assessment, because he had another good piece of ground across the low divide on Goldpan, where he held forth. They were about the same age, and neither of them had any bad habits—that is, so far as any one in the camp ever knew. Maybe this was one reason why they weren't well known. A man has to have some bad habits in order to be what is generally called "popular."

The war was caused by two women, a building and a claim. The claim was Number Three, on Mariposa, which stood between their stake lines, and had once been owned and worked by Old Bill Banks. Old Bill had a good piece of ground, a water right, and a hydraulic plant. Being a man who preferred telling about what he was going to do in preference to knowing what he had done, he got just about that far and quit. He died. His heirs put Number Three in the hands of an eastern agent, who has since changed his home address, and perhaps his name. Anyhow, it's a certainty he never came West, where several of the boys wanted to meet him and give him a reception. It's the kind of reception it would be, and he wasn't anxious.

One noon when the sun was shining, in the summer-time, and dust was on the trails, the stage man Burdick came rattling along and dumped out a woman together with several boxes and bundles, and she wasn't the kind of camp cook. She didn't look as if she cared for dancing. She talked for a minute with the proprietor of the Palace Hotel, which really wasn't a palace, and he called Bill Thompson over from where he had been throwing supplies on the back of a mountain backboard he always had when getting an outfit.

"Bill," he said, "this is Miss Emerelda Brown. She's bought Number Three, on Mariposa, and is going to be a neighbor of yours. Can't you give her a lift up the gulch?"

Bill wasn't much of a ladies' man, and at first didn't like the job; but she put out her hand and gave him one of those smiles that a woman never learns until she is at least thirty years old, and from that minute she owned both Bill and the backboard. Being a man who didn't talk much, he scratched his head and said:

"Sure!" Then he lugged her stuff over and lashed it on top of a sack of flour and side of bacon, and was glad she was going along. That was Miss Emerelda.

They drove away out through the gulches and tents and over the river-falls into the canon, and she talked and Bill said, "Show" or "Do tell," or anything else in the way of conversation that seemed quick and interesting; and before they had driven two miles he learned that she had sunk all her money in buying Number Three, had read in the *Weekly Woman's Advertiser*, published at Pace Center, Iowa, Big Divide, and titles don't count much, of how women made the best miners in the world, and so had come West to make her fortune. She was willing to stay till she made it, even if it did take a couple of months. Bill thought, probably long anyway.

He didn't tell her he had been mining for twenty years, and hadn't made it yet. That would have discouraged her. He merely

There came a day, as before, when the stage came up with a jerk before the Palace Hotel, and as it in repetition, dumped out another woman, who didn't have much luggage and was not alone. She was accompanied by about the ugliest brindle bulldog that ever came west of the Rockies. She stepped out with a self-confident air, glowered unabashed at the men who gaped at her, and said to the proprietor of the Palace:

"Here, you! Hook onto them things and look lively! Jim Mrs. Mirandy Tibbets, and I've bought Number Three gold mine on a river called the Mariposa. Take them things inside till I and someone who ain't too lazy to take me up to my property."

She was business, all right, and she knew women's rights and Mrs. Pinkham from A to Z. She made folks step around lively, and partly because he was afraid of her, and partly because he didn't want to work, the landlord "shuffled her off" on Jim Tibbets. She started in to boss Jim from the minute she met him, but he wasn't the kind to be bossed. He sized her up critically, and decided, as he afterward said, that if she were "well halter-broke and taught not to tangle her pocket-ropes, she wouldn't be a bad one to own." So he called her down.

"Look here, Mrs. Mirandy," he said, with his soft drawl, "I don't know nothin' about women's rights, nor none of them things, so don't give me none of your guff on that line. You ain't got no right to boss me up 'goin' you. There's a woman a-workin' Number Three now, an' she says she owns it. If you've got the goods, it's yours. If you ain't you've been humbugged, an' somebody's peddled you a brick. Now, let's get down to business."

That took her down some. She looked

"Don't pay no attention to him," she while, and decided to talk to his protégé. She had taken to tears by this time, and that strengthened his resolution. He went to bed resolved that on the morrow he would end the law's delay, conduct the affair according to his own code, and force a settlement.

It was barely daylight when he rode up the Mariposa trail, followed by the brindle bulldog, which had adopted him as a master and seemed pleased with the new partnership. They came to the first and found Doc with the stream

It's possible that there would have been an arbitration had not Doc been so peculiar. He pretended not to see Jim, but spotted the bulldog and switched the lever. There was one frightened yowl, and for one quick instant the gulch was filled with water and dog. The bull landed about 50 feet up the bank, caught his breath, tugged his tail between his legs, and made a speed record for the camp.

But in the meantime things were doing with Jim and Doc.

Jim unlimbered a Colt's antique but trustworthy pattern, and his first shot brought Doc into the air sprawled out and quiet. The report had barely died away when there came another "Bang" from up the gulch, where Bill had appeared on the scene. Jim felt his left arm go numb and dropped to cover until he could see where the shot came from. Then the two combatants arose and blazed away at each other, but with bad aim because between them was a sheet of spraying water where the big leg was playing silver sheets aimlessly into the air, herdless of the part it was taking in the little war.

But so soon as he had made one mistake, that of not coming prepared for a long-range duel with no other ammunition than the cartridges in his gun. As his last shot blazed out and he saw his antagonist still unharmed, he cursed his luck and turned back and the trail, knowing that in a mere physical contest he would be no match for that giant above, who was also hurrying to his cabin for more cartridges. So the war ended that day, and Jim went under the camp surgeon's care to wait until his wounded arm healed.

Four days of waiting passed on Number Three, in which time Bill carefully cleaned up his rifle each morning and passed it with Doc, who was a trifle inconvenienced from the effects of the bullet which had glanced along his skull but had brought no more serious injury. At last, on the fourth day, with the missing deed for the property, duly signed, attested and recorded back in Iowa, and Bill felt greater confidence.

It was late on the following evening when the officer arrived with a posse sufficient to make it interesting for the most desperate man in the range, and by his side triumphantly rode Jim Tibbets, with his arm in a sling. Bill grinned maliciously at this evidence of his marksmanship, and with a nonchalant air chewed a pine-apple as the posse came to a halt in front of the cabin.

"Bill," the sheriff opened. "I think you're on the wrong trail. I've come up here with papers from the court, and if you want to see I've got the deed given' this Number Three to the Widder Tibbets. Guess you'll have to hike."

Bill's expression of confidence waned, and he thought of his gun. "Deeds, deeds," he growled, in a surprised tone. "If you've got a deed, Hank I'd like to see it. I've got one, too."

It was the officer's turn to be surprised. They hesitated, dismounted, and held a confab wherein the two documents were compared, and found to have been issued on the same date and recorded in two different places at the same hour.

Matters were growing complicated. A slow grin overspread Jim's face. He and Bill had nothing to say, and the sheriff was puzzled. He looked at the two papers again and softly swore at the agent who had sold the property agent, but it didn't make no difference, twice for the same amounts of money, and with different sets of witnesses. It was too much for him.

"I reckon there ain't nothin' to do but to take both these documents back to the court," he finally said, "but I don't think it's a square deal for you to keep your giant's a-workin' on the bank. Bill, until it's settled."

Bill was about to explain that there wasn't any power on earth that he knew of that would keep him from turning on the stream each day as long as he harassed the mine for Emerelda, but she herself, white, trembling, and wanting to avoid trouble, silenced him, and assured the sheriff the officers went away.

It was up to the law now, the thing that took away property by means of a deed, and that was a thing that was understandable, and always left people poorer than when they started along its devious trails; but there was nothing to be done. The next day found the big miner in the camp, seeking legal advice for Emerelda and burdened with forebodings and gloom. Like Jim, he felt himself hopelessly enmeshed in a tangled homeward after his errand.

It was dusk when Bill rode up to the

cabin door on Number Three with the determination to break the news as gently as possible; and at about the same time Jim Tibbets was explaining his forebodings to the widow in the camp below.

Tier came several days of waiting, nearly every one in the camp making bets as to which one of the combatants would win out at the next encounter, and all expectant and argumentative.

The result of this was that pretty nearly every man in Mariposa had taken sides, and was ready if it came to a final settlement to enlist actively in one of the wars. Situations were about evenly divided, and things were quiet at night because nearly all the partisans were busily engaged in the back ends of their cabins cleaning up their weapons. It was promised to be warm.

Both Jim and the widow had disappeared from the rude public gaze, and were said to have gone to Burdick to consult with him. Bill was reported to be too busy nursing Doc and guarding Number Three to appear in the camp; and only the building was left to howl dismally in an improvised kennel.

The break came unexpectedly. A man on horseback, pulled up the Elmeralda faction, partitioned up one afternoon in front of Bill's cabin and hailed. Bill came to the door and peered out, his fingers clutched on a rifle-barrel behind the door until he could recognize the character of reception awaiting him.

"Bill," the rider said, throwing one leg over the pommel of his saddle and dexterously rolling a cigarette. "Jim's back from up at Burdick, but he got nothin' to say. He jest naturally walked up and down and thought out of him, acted grouchy as usual, and pulled out with her for his claim over on Goldpan."

"Is that all, Bill, emerging from the door and looking disconsolately at his friend.

"Thought I'd better come by an' tell you, so's you can keep on the lookout. No tellin' what'll happen next, now them lawyers is fightin'."

"Lawyers fightin' now?"

"Humph! Yes!"

"You see, Number Three's a good piece of ground, an' they kalkerlate no tellin' what'll happen comin' in somewhere when it gets to trial."

"Thanks, pal." And the door shut with a bang. This was the limit. Bill walked up and down and thought out a solution which resulted in a trip to camp by the now-recovered Doc on the morrow.

It was late on the following evening when Bill, contented and whistling, his mind made up, crashed through the brush on the hillside of Goldpan, and most desperate man in the range, and by his side triumphantly rode Jim Tibbets, with his arm in a sling. He was wise as a fox, with his arm in a sling. Bill grinned maliciously at this evidence of his marksmanship, and with a nonchalant air chewed a pine-apple as the posse came to a halt in front of the cabin.

"Bill," the sheriff opened. "I think you're on the wrong trail. I've come up here with papers from the court, and if you want to see I've got the deed given' this Number Three to the Widder Tibbets. Guess you'll have to hike."

at Jim for a minute, as if she thought of neral, but I reckon this girl ain't got no kickin' the dog on him, but he didn't papers, and Mrs. Tibbets has. So this took the kind to be afraid. They stared into each other's eyes for about a moment, and from then on she belonged to James Tibbets. She was a widow, and understood that, and it wasn't very long until Jim was involved in all the trouble about Number Three. He paced here as he could, and told her that on the following day he would take her up to the claim and try to get the single straightened out.

The sun was shining, the birds singing, and everything bright and gay, when they came up to Number Three on the following morning, heard the boom of the hydraulic, and the singing notes of a woman's voice. Doc was hard at work, grumbling to himself as usual, and Bill was just coming down the trail when the visitors arrived. It all looked peaceful and very little like war.

"Mornin'," said Jim, after stopping his horses.

terms which he couldn't understand. The next day he took a trip to his own claim, but instead of working, crawled up on the ridge to see what was going on Mariposa. Everything was as usual, the trees standing silent, the shadows crawling with regularity along the canon wall, and the big giant down below ripping and tearing away at the earth. This last was too much. Jim hurried back across the divide and then down to the camp, where on the following day he expostulated with the lawyers.

"I tell you," he said, banging his fist on the nearest table, "this law game's all right, but it ain't the way to handle a fellow or a woman, either, that's jumped a claim."

"Easy, easy," urged the lawyer. "Easy be damned! Can't you see they're a-workin' the mine all the time, and gettin' out pay while you're cadgin' around here and a-wastin' time?"

Then he tore madly out of the shanty, walked gloomily around the camp for a

August Furniture Sale

Prices that Prove the Economy of Buying Your Furniture Now. Note these Unusual Values

The August Furniture Sale has been broadly planned. It is not a sale of a few odd pieces that we want to sell, but a wide merchandising movement embracing

1st—Every stick of our regular furniture in our warehouses and on our floors.
2nd—Special purchases from manufacturers who supply us regularly.

The reductions throughout range from 10 per cent to 50 per cent; the average savings are about \$20 in every \$100 spent.

The furniture that bears the least reductions—10 to 20 per cent—are the staple lines and complete stocks which we carry all the time.

The furniture that bears the biggest reductions—25 per cent, 30 per cent, 40 per cent, and even 50 per cent—is the broken suits, odd pieces, discontinued patterns of our own and those we have acquired by special purchase from the manufacturers. Though necessarily abbreviated, the appended lists are typical of the reductions throughout:

THE CADILLAC

Again Proves its Right
to be called the
"Leading American Motor Car"

Each year since 1902, when the first Cadillac was produced, the world has depended on the Cadillac for the real progress in motor car development.

Each year the world has waited eagerly to see what the Cadillac would do, what improvements it would offer—

And each year the Cadillac has far exceeded their expectations.

So, in this new car, the 1914 model, we offer a positive revelation in motor car luxury. There is not only the Cadillac that you know backed by over 55,000 owners, but numerous improvements which mean

A New Quality of Luxury
A New Element of Efficiency
A New Source of Economy

The Cadillac-Delco electrical system of automatic cranking, lighting and ignition—the first practical system made and first introduced by us—has, after experience with it on 47,000 Cadillacs, been still further improved and simplified and the slight attention required from the user materially reduced.

The carburetor has been improved and its well-known efficiency and economy increased. It is hot-water jacketed and electrically heated to facilitate starting in the coldest weather.

The rear springs are six inches longer.

Body designs are newer and handsomer.

Front-seat passengers may enter and leave the car at either side.

These and many other refinements of essential details make for a more wonderful, a more beautiful, a more dependable Cadillac and serve to more firmly establish its position as "America's Leading Motor Car."

And the Principal Contributing Factor—The Two-Speed Direct Drive Axle—Is Here Described In Detail

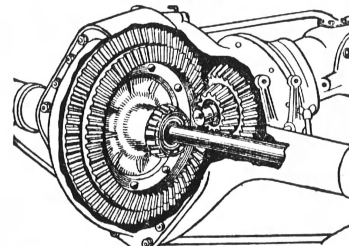

In this new axle the Cadillac Company once more gives evidence of its leadership in motor car development and motor car progress.

The advantages of this axle do not lie in its being particularly an improvement so far as its functions as an axle are concerned, but rather in the manifold advantages attained in other directions through the medium of the axle.

In place of the single level pinion and single level driving gear common to ordinary construction, there are two level pinions and two level driving gears. This affords two different gear ratios, each driving direct from the engine to the axle without intermediate gearing.

The usual single direct gear ratio range from about 2.5 to 1 down to 4 to 1 according to the car. Any single gear ratio is necessarily what it is because a single gear ratio must be, or should be, the particular one which is best adapted for all speeds and for all conditions.

No one single gear ratio can possibly be just right for all speeds and for all conditions. But by using two direct gear ratios we have exactly doubled the means for promoting the economical and efficient application of power developed by the engine to the driving of the car.

In the new Cadillac axle we have, as before stated, two direct-drive gear ratios. The low direct drive gear, which is 2.46 to 1, is especially adapted for city driving, where starting, stopping and slowing down are frequent and where cautious operation is necessary.

This is due to the fact that with the engine turning over slowly—comparatively speaking—a given quantity of gas is utilized to greater advantage and generates more actual power than with the engine turning over more rapidly. Friction also is materially reduced by reason of the parts operating more slowly and this, too, is a factor in reducing gasoline consumption when driving on the high gear.

Another great advantage is that with this direct drive high gear ratio, there is obtained an extraordinarily luxurious smoothness in running, together with a marked quietness and a comparatively freedom from the vibration which to a greater or less extent, is ever present when traveling at high speed with a low gear ratio.

In attaining these much desired qualities, instead of adding complications to the power plant which make for greater fuel consumption and for greater upkeep expense, they have been attained by methods which are strikingly the reverse, viz., by methods which lessen the fuel consumption, methods which decrease friction with its resulting wear and methods which make for longer life, together with an appreciable decrease in the cost of operation and maintenance.
